Message from the Mayor

Welcome to the first edition of our Belmont Bulletin for 2024. I am pleased to be back to share an update on what's happening in the City of Belmont.

This is a special year, as we celebrate our 125 year anniversary as a local government. This milestone is a testament to our enduring spirit and rich heritage, a journey that extends far beyond 125 years.

I'm pleased to announce that Harmony Week Festival is returning to Tomato Lake on Saturday 16 March. This event is a true celebration of our multicultural community. I encourage everyone to come along to enjoy a wide range of cultural experiences, live performances, free kids' activities and more.

In keeping with our commitment to preserve our history, we have launched our annual Local History Photographic Competition, which is open until Thursday 29 February. This is your chance to contribute to our living history, capturing moments that tell our community's unique story.

For more information and to enter, please visit the City's website.

As we reflect on our 125 years, it's a time to cherish our past achievements and look forward to a future filled with opportunity. This year is dedicated to celebrating our journey — acknowledging where we've been, appreciating where we are, and embracing the exciting path ahead.

I look forward to seeing you out at various events throughout this special year.

Thank you.

Our journey to 125 years

The City of Belmont's journey extends far beyond our 125 years as a local government.

For tens of thousands of years, the First Australians knew the Belmont area as Goorgyp.

First Australians moved through different areas through different seasons to follow food at the optimal times of the year, in a way that did not interfere with breeding cycles or populations of their food sources.

A well-established track through the area was mimicked by what we now recognise as the Great Eastern Highway. At the time of the Swan River Colony, Goorgyp was under the stewardship of the Beeloo Clan under Munday.

By 1830, nearly all the river frontage from Perth to Guildford had been divided into grants, including land located in the current City of Belmont.

The Gold Rush in the 1890s brought people through the Belmont district, as people travelled up Great Eastern Highway - called Guildford Road at the time - to the goldfields. In response to all these travellers, general stores, boarding houses and

hotels were built.

As people returned from the Gold Rush, housing developments grew in the area, prompting churches and schools to be built. This also meant the popularity of horse racing grew and in 1897, two new railway bridges and a station next to the racecourse were built.

The Belmont Road Board was established in 1898, the precursor to the current City of Belmont.

The history of the City of Belmont is woven from the countless stories of those who have called this place home. From our First Nations communities who nurtured the land for thousands of years to new arrivals seeking new opportunities, each have contributed their unique traditions, struggles and triumphs to make the City of Belmont what it is today.

Visit the Belmont Museum to explore the stories that make up the City of Belmont's rich history.
