

Ordinary Council Meeting

Agenda

28 May 2024

City of
Belmont

Notice of Meeting

An **Ordinary Council Meeting** will be held in the Council Chamber of the **City of Belmont Civic Centre**, 215 Wright Street, Cloverdale, on **Tuesday 28 May 2024**, commencing at 6.30pm.

Wilmot Loh
Acting Chief Executive Officer

Please read the following important disclaimer before proceeding

Any plans or documents in agendas and minutes may be subject to copyright. The express permission of the copyright owner must be obtained before copying any copyright material.

Any statement, comment or decision made at a Council meeting regarding any application for an approval, consent or licence, including a resolution of approval, is not effective as an approval of any application and must not be relied upon as such.

Any person or entity who has an application before the City must obtain, and should only rely on, written notice of the City's decision and any conditions attaching to the decision and cannot treat as an approval anything said or done at a Council meeting.

Any advice provided by an employee of the City on the operation of a written law, or the performance of a function by the City, is provided in the capacity of an employee, and to the best of that person's knowledge and ability. It does not constitute, and should not be relied upon, as a legal advice or representation by the City. Any advice on a matter of law, or anything sought to be relied upon as a representation by the City should be sought in writing and should make clear the purpose of the request. Any plans or documents in agendas and minutes may be subject to copyright.

Table of Contents

28 May 2024

Item	Subject Heading	Page
1	Official Opening	7
2	Apologies and leave of absence	7
3	Declarations of interest that might cause a conflict	7
3.1	Financial Interests.....	8
3.2	Disclosure of interest that may affect impartiality	8
4	Announcements by the Presiding Member (without discussion) and declarations by Members	8
4.1	Announcements	8
4.2	Disclaimer.....	9
4.3	Declarations by Members who have not given due consideration to all matters contained in the business papers presently before the meeting	9
5	Public question time	9
5.1	Responses to questions taken on notice	9
5.1.1	Ms L Hollands on behalf of the Belmont Resident and Ratepayer Action Group	9
5.1.2	Ms L Hollands, Redcliffe	10
5.1.3	Mr A Bell, Redcliffe	10
5.1.4	Mr B O'Hara, Redcliffe.....	11
5.1.5	Mr M Cardozo, Redcliffe	12
5.1.6	Ms J Cardozo, Redcliffe	13

5.1.7 Mr J Harris, Cloverdale.....	14
5.1.8 Mr L Rosolin, Belmont.....	14
5.1.9 Ms N Brown, Belmont	14
5.1.10 Ms B Scharfenstein, Redcliffe	15
5.1.11 Mr L Rosolin, Belmont.....	15
5.1.12 Mr R Padua, Redcliffe.....	16
5.1.13 Ms C Padua, Redcliffe	17
5.2 Questions from members of the public	18
6 Confirmation of Minutes/receipt of Matrix	18
6.1 Matrix for the Agenda Briefing Forum held 21 May 2024.....	18
6.2 Ordinary Council Meeting held 23 April 2024	18
7 Questions by Members on which due notice has been given (without discussion)	19
8 Questions by members without notice	19
8.1 Responses to questions taken on notice	19
8.2 Questions by members without notice	19
9 New business of an urgent nature approved by the person presiding or by decision.....	19
10 Business adjourned from a previous meeting.....	19
11 Reports of committees	19
11.1 Standing Committee (Audit and Risk) held 1 May 2024 (circulated under separate cover).....	19
12 Reports of administration.....	20
12.1 Amendment to Approval to Increase Student and Staff numbers at Educational Establishment - Lot 2 (154) Epsom Avenue, Belmont	20
12.2 Petition - Vehicle and Pedestrian Road Safety on Lyall Street, Redcliffe	83
12.3 Special Electors' Meeting Minutes - 29 April 2024	98
12.4 Accounts for Payment April 2024	120
12.5 Monthly Financial Report for April 2024	132
13 Reports by the Chief Executive Officer	153
13.1 Request for leave of absence.....	153

13.2 Notice of motion.....	153
13.2.1 Notice of Motion (Mayor Rossi) - Urban Forest at Home Plan .	153
14 Matters for which the meeting may be closed	157
14.1 Tender 02/2024 - Wet and Dry Plant Hire	157
14.2 Tender 04/2024 - Supply and Laying of Asphalt Road Surfacing.....	157
14.3 Tender 05/2024 - Minor General Concrete Works including Street Furniture	158
14.4 Tender 06/2024 - Education, Cleaning and CCTV Inspections of Stormwater Drainage Structures.....	159
14.5 Tender 10/2024 - Vegetation Watering, Tree Planting & Maintenance	160
15 Closure	161

Alternative Formats

This document is available on the City of Belmont website and can be requested in alternative formats including electronic format by email, in hardcopy both in large and standard print and in other formats as requested. For further information please contact the Community Development team on (08) 9477 7219. For language assistance please contact TIS (Translating and Interpreting Service) on 131 450.

**Councillors are reminded to retain any
confidential papers for discussion with the minutes.**

1 Official Opening

The Presiding Member will read aloud the Acknowledgement of Country.

Acknowledgement of Country

Before I begin, I would like to acknowledge the Whadjuk Noongar people as the Traditional Owners of this land and pay my respects to Elders past, present and emerging.

I further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

The Presiding Member will cause the Affirmation of Civic Duty and Responsibility to be read aloud by a Councillor.

Affirmation of Civic Duty and Responsibility

I make this affirmation in good faith and declare that I will duly, faithfully, honestly, and with integrity fulfil the duties of my office for all the people in the City of Belmont according to the best of my judgement and ability.

I will observe the City's Code of Conduct and Standing Orders to ensure efficient, effective and orderly decision making within this forum.

2 Apologies and leave of absence

Cr Vijay (leave of absence) Central Ward

3 Declarations of interest that might cause a conflict

Councillors/Staff are reminded of the requirements of s5.65 of the *Local Government Act 1995*, to disclose any interest during the meeting when the matter is discussed, and also of the requirement to disclose an interest affecting impartiality under the City's Code of Conduct for Council Members, Committee Members and Candidates and the Code of Conduct for Employees.

3.1 Financial Interests

A declaration under this section requires that the nature of the interest must be disclosed. Consequently, a member who has made a declaration must not preside, participate in, or be present during any discussion or decision-making procedure relating to the matter the subject of the declaration.

Other members may allow participation of the declarant if the member further discloses the extent of the interest and the other members decide that the interest is trivial or insignificant or is common to a significant number of electors or ratepayers.

Name	Item No and Title	Nature of Interest (and extent, where appropriate)

3.2 Disclosure of interest that may affect impartiality

Councillors and staff are required (Code of Conduct), in addition to declaring any financial interest, to declare any interest that might cause a conflict. The member/employee is also encouraged to disclose the nature of the interest. The member/employee must consider the nature and extent of the interest and whether it will affect their impartiality. If the member/employee declares that their impartiality will not be affected then they may participate in the decision-making process.

Name	Item No and Title	Nature of Interest (and extent, where appropriate)

4 Announcements by the Presiding Member (without discussion) and declarations by Members

4.1 Announcements

Any statement, comment or decision made at a Council meeting regarding any application for an approval, consent or licence, including a resolution of approval, is not effective as an approval of any application and must not be relied upon as such.

Any person or entity that has an application before the City must obtain, and should only rely on, written notice of the City's decision and any conditions attaching to the decision, and cannot treat as an approval anything said or done at a Council meeting.

Any advice provided by an employee of the City on the operation of a written law, or the performance of a function by the City, is provided in the capacity of an employee, and to the best of that person's knowledge and ability. It does not constitute, and should not be relied upon, as a legal advice or representation by the City. Any advice on a matter of law, or anything sought to be relied upon as a representation by the City should be sought in writing and should make clear the purpose of the request. Any plans or documents in agendas and minutes may be subject to copyright.

4.3 Declarations by Members who have not given due consideration to all matters contained in the business papers presently before the meeting

5 Public question time

5.1 Responses to questions taken on notice

5.1.1 Ms L Hollands on behalf of the Belmont Resident and Ratepayer Action Group

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Ms Hollands was provided with a response on 15 May 2024. The response from the City is recorded accordingly:

1. What is Cr Vijay's legal name, Vijay Vijay or Tamak Vijay and who allowed him to change his name?

Response

Cr Vijay's full name is Tamak Vijay.

5.1.2 Ms L Hollands, Redcliffe

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Ms Hollands was provided with a response on 15 May 2024. The response from the City is recorded accordingly:

5. Item 12.4 is the First Nations Strategy, do we have a similar strategy for seniors and those with disabilities? If so, what is the policy called, and if not is there any plan to do a policy for the significant amount of people in our community?

Response

The City's current Strategy for seniors is the Age-Friendly Belmont Strategy (2022) and the current strategy for people with disability is the Access and Inclusion Plan 2022-2026.

5.1.3 Mr A Bell, Redcliffe

The following questions were taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr Bell was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

2. There are multiple precedents of traffic calming devices being removed within 12 months of installation due to complaints, including excessive noise. The likelihood of removal especially near homes due to noise complaints is a realistic expectation. Can Council authorise the City to provide an indicative cost to reinstate Stanton Road?

Response

A similar question was asked at the 12 December Ordinary Council Meeting. The below answer was provided. The City is implementing the works on Stanton Road under Main Roads WA Low-Cost Urban Road Safety program. The various measures have been approved and funded by Main Roads WA who have implemented similar treatments at other Perth Metro locations with successful outcomes. A scenario in which the Stanton Road traffic measures is not successful is hypothetical and

a detailed estimate for their removal and reinstatement of the road is not required, but the cost would be significant.

4. At the March Council meeting, the City stated that the current permanent Stanton Road calming proposal was discussed at the May 2023 Information Forum. What evidence from this Information Forum can the City supply to confirm that Council approved the variation to the alternate motion?

Response

There is no variation to the alternate motion. The City is implementing the resolutions as moved at the 28 February 2023 Ordinary Council Meeting.

5.1.4 Mr B O'Hara, Redcliffe

The following questions were taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr O'Hara was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

1. Since the opening of Bourne Street at Bulong Avenue, Bulong is now being used as an accessway to and from the Redcliffe Train Station by buses from the Redcliffe depot. Would the City be willing to contact the management of the Redcliffe bus depot to ensure that drivers cease the practice of rat running their buses up and down Bulong avenue?

Response

City Officers have contacted the Public Transport Authority regarding this matter who have instructed their drivers to use Fautleroy Avenue and Dunreath Drive to travel from the Depot to the Train Station.

2. With the possibility of works commencing later this year on the Stanton Road traffic calming devices, I assume the City will have prepared a plan for a diversion of the 15,000 vehicles that are using this road. Can the City share the planned diversion routes and modelling, which will indicate which streets are expected to bear the brunt of this increased traffic flow?

Response

A detailed Traffic Management Plan will be prepared prior to the commencement of works. While there will be a number of road closures to accommodate various construction locations for the duration of the works, detours will be in place to prevent through traffic entering

Stanton Road. These detours will likely utilise Epsom Ave, Great Eastern Highway, Fauntleroy Avenue and Dunreath Drive. The traffic management plan will be communicated prior to the works commencing.

3. After completion of the works on Stanton Road, what measurements or tools will the City be using to measure the success of the project, would the assessment involve the adoption of the 2016 Aus Roads Warrant System or now the new 2008 version?

Response

LCURS is a State Government programme that is administered through Main Roads WA. The assessment of LCURS works is as per the 'Performance Management Protocols' outlined in the Main Roads WA document 'Strategy and Implementation Framework – Low Cost Urban Road Safety Program'

5.1.5 Mr M Cardozo, Redcliffe

The following questions were taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr Cardozo was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

1. Many residents remain perplexed about the Moreing Street traffic calming. I recently requested under FOI the program. In a nutshell, I wanted to see the business case that resulted in the March 2021 City approval. When I received the heavily redacted documents back, I discovered virtually no evidence of any rationale behind the decision other than speed. The business case is not confidential nor is it sensitive information. Expenditure of public money requires a process and a business case leading to the approval. In case I'm wrong and for the record, can the City publish the full business case that resulted in \$218,000 of ratepayer money being expended?

Response

There was no business case prepared for the Moreing Street works. The works were approved on the basis of traffic safety.

2. The City could have installed just two speed humps mathematically to bring Moreing Street speed under 50. Via FOI, the initial project sought four speed humps over the entire street. Bear in mind, no other street in the City has speed humps on its entire length. Via FOI from a City Officer and I quote "thoughts are to introduce another hump just before Miller Avenue to make

sure they are a regular inconvenience to through traffic and hopefully deter rat running. As we are reasonably flush with money on this project so we could afford the additional device". So we are flush with money to deter rat running, the City installed five speed humps instead of four. There is absolutely no transparency in the current operational system of applying ratepayer money to traffic calming. What can Council do to restore confidence that our ratepayer money is not being spent subjectively, without a system or under duress?

Response

The City's approach to traffic management is to adopt strategic transportation planning using traffic modelling as a primary planning method with use of the City's warrant system as a secondary support tool. The City has appointed a specialist traffic engineering consultant company to undertake modelling of the Redcliffe Area local road network traffic.

There will be a community engagement process in the preparation of the model and the report recommendations will be made available for comment upon completion.

5.1.6 Ms J Cardozo, Redcliffe

The following questions were taken on notice at the 23 April 2024 Ordinary Council Meeting. Ms Cardozo as provided with a response on 16 May 2024. The response from the City is recorded accordingly:

1. Can the report for the \$60,000 traffic modelling please be made public once complete?

Response

Yes, the report will be made available for comment upon completion.

4. At Belmont, application of the warrant system is optional. The Council at Victoria Park have formally endorsed their Warrant System as the best system to rank priority for expenditure of ratepayer money. Has Belmont Council endorsed our Warrant System? and if not, why?

Response

The Local Area Traffic Management Warrant System (LATM-WS) is not a strategic planning tool. It is an operational tool that is used reactively to assess areas where traffic problems have arisen.

There is no requirement in the Austroads Guide to Traffic Management Part 8, Local Street Management (Guide) for Councils to endorse warrant systems.

5.1.7 Mr J Harris, Cloverdale

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr Harris was provided with a response on 15 May 2024. The response from the City is recorded accordingly:

1. Can an assessment of previous plans' success be included in reports when strategies, policies and plans are presented to Council and the public?

Response

To assist with providing a concise report, assessment of previous plans would focus on recommendations towards a new strategy's forward-looking priorities. The effectiveness of current plans is monitored and reported to Council via monthly, quarterly and/or annual reporting processes as relevant.

5.1.8 Mr L Rosolin, Belmont

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr Rosolin was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

2. What action can the City do about the litter and bins at this property?

Response

This property is the responsibility of the Department of Communities (DoC). The City has increased ranger visits to DoC properties and will continue to work with the Department to assist in waste education.

5.1.9 Ms N Brown, Belmont

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Ms Brown was provided with a response on 15 May 2024. The response from the City is recorded accordingly:

1. Down Hardey Road, near Great Eastern Highway we have parking signs stating four hour limited parking, there are cars parking there all day. Is there something the Rangers could do about the parking issue?

Response

Since 2022 City Rangers have only received limited complaints relating to vehicles parked in a manner that affects the line of sight near the Wallace Street/Hardey Road intersection. City Rangers should be contacted if there are concerns that vehicles are overstaying at this location.

5.1.10 Ms B Scharfenstein, Redcliffe

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Ms Scharfenstein was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

4. In regard to the proposed capital budget for 2021, I draw your attention to the comment "the project is to reduce speeding traffic from Great Eastern Highway data shows its particular locations are of concerns, this has been promoted by Cr Ryan, BRRAG and DA6 dissenters." That comment was made in relation to the \$350,000 allocated to the municipal spending, can the Council please explain the term DA6 dissenters and who they believe these dissenters to be?

Response

As noted by the CEO this was not an appropriate comment. As no officer currently working with the City was involved in making this comment, it is not possible to ascertain who the comment referred to.

5.1.11 Mr L Rosolin, Belmont

The following question was taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr Rosolin was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

7. Has anyone reported the bitumen issues on First Street, is it going to be inspected?

Response

This query is in relation to the bridge on First Street, between Boulder Avenue and Brearley Avenue. This bridge crosses over the Water Corporation Perth Airport Southern Main Drain and falls under the responsibility of the Water Corporation.

There is an ongoing subsidence problem at the bridge abutments. The City has been liaising with WaterCorp regarding this problem.

5.1.12 Mr R Padua, Redcliffe

The following questions were taken on notice at the 23 April 2024 Ordinary Council Meeting. Mr Padua was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

1. The Moreing Street traffic calming questionnaire said and I quote

“The City has received numerous complaints regarding the use of Moreing Street as a through road for traffic entering or exiting the domestic airport terminals from Great Eastern Highway.”

This statement doesn't seem to make any sense. Airport and City bound, Lyall Street is the first road in from Great Eastern Highway and the first Road out from Stanton Road. Why didn't the City apply a coordinated approach that included Lyall Street and Morrison Street before spending ratepayer money on just one road?

Response

Traffic calming devices were installed on Moreing Street in response to the high average speeds recorded on the street. The City is adopting a strategic transportation planning approach and has appointed a specialist traffic engineering consultant to undertake modelling of the Redcliffe Area local road network traffic. This will provide a coordinated approach to traffic management planning moving forward.

3. Can the City publish the total number of homes that received direct mail advising them of the Stanton Road project last year and can this number be broken into Stanton, Second and adjacent corner homes?

Response

The total number of addresses that received direct mail were 141.

Of 141 addresses:

70 - Stanton Road.

20 - Moreing Street.

14 - Second Street.

7 - Morrison Street.

7 - Boulder Avenue.

- 5 - Central Avenue.**
- 4 - Kanowna Avenue.**
- 4 - Epsom Avenue.**
- 3 - Manuel Crescent.**
- 3 - Towton Street.**
- 3 - Spencer Court.**
- 1 - Drummond Street**

4. With reference to the key goal of reducing traffic volume on Stanton Road the City has stated that the most objective measure to assess the degree of success will be the traffic volumes prior and the traffic volumes after the traffic calming. Given Stanton Road will be permanently altered, can the City publish the target or success post traffic calming volume number? If no post objective measurement number has been set, can we ask why?

Response

LCURS is a State Government programme that is administered through Main Roads WA. The assessment of LCURS works is as per the 'Performance Management Protocols' outlined in the Main Roads WA document 'Strategy and Implementation Framework – Low Cost Urban Road Safety Program'.

5.1.13 Ms C Padua, Redcliffe

The following questions were taken on notice at the 23 April 2024 Ordinary Council Meeting. Ms Padua was provided with a response on 16 May 2024. The response from the City is recorded accordingly:

2. Unlike Moreing Street, Stanton Road is a local distributor road that thousands of local residents use and rely on daily. The extensive traffic calming devices will affect smooth and effective access for emergency vehicles where seconds count. Did the City consult emergency services, in particular St John Ambulance, and what was their response?

Response

Main Roads WA consulted with emergency services as part of the Low Cost Urban Road Safety Programme. Mid-block treatments such as Speed Cushions are designed to allow wider vehicles with a wheel gap greater than 1.6 metres safe passage to drive over the cushion without interfering with the vehicle's speed or tilt. These vehicles include

emergency service vehicles such as Ambulance vehicles and Fire trucks.

The midblock and intersection raised plateau treatments have a gentle gradient suitable for public transport and emergency vehicles. There are many examples of these treatments constructed across the Perth metropolitan area.

3. For safety purposes, residents have a right to know how many seconds the traffic calming devices on Stanton Road and Second Street add to the journey from Epsom Avenue to Central Avenue. Can the City please publish this time figure?

Response

Following completion of the Stanton Road works the City will further undertake traffic surveys to assess driver behavioural change.

5.2 Questions from members of the public

6 Confirmation of Minutes/receipt of Matrix

6.1 Matrix for the Agenda Briefing Forum held 21 May 2024

Officer Recommendation

That the Matrix of the Agenda Briefing Forum held on 21 May 2024, as printed and circulated to all Councillors, be received and noted.

6.2 Ordinary Council Meeting held 23 April 2024

Officer Recommendation

That the Minutes of the Ordinary Council Meeting held on 23 April 2024 as printed and circulated to all Councillors, be confirmed as a true and accurate record.

7 Questions by Members on which due notice has been given (without discussion)

8 Questions by members without notice

8.1 Responses to questions taken on notice

8.2 Questions by members without notice

9 New business of an urgent nature approved by the person presiding or by decision

10 Business adjourned from a previous meeting

11 Reports of committees

11.1 Standing Committee (Audit and Risk) held 1 May 2024 (circulated under separate cover)

Officer Recommendation

That the Minutes of the Standing Committee (Audit and Risk) held on 1 May 2024 as previously circulated to all Councillors, be received and noted.

12 Reports of administration

12.1 Amendment to Approval to Increase Student and Staff numbers at Educational Establishment - Lot 2 (154) Epsom Avenue, Belmont

Voting Requirement	:	Simple Majority
Subject Index	:	115/001
Location/Property Index	:	Lot 2 (154) Epsom Avenue, Belmont
Application Index	:	181/2012/DAAM/B
Disclosure of any Interest	:	Nil
Previous Items	:	25 October 2022 Ordinary Council Meeting Item 12.2 Petition – Epsom Avenue Shopping Precinct – Parking Issues; and 22 August 2023 Ordinary Council Meeting Item 12.1 - Amendment to Approval to Increase Student and Staff numbers at Educational Establishment - Lot 2 (154) Epsom Avenue, Belmont
Applicant	:	Rowe Group
Owner	:	A M Wragg and D T W Munrowd-Harris
Responsible Division	:	Development and Communities

Council role

When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice. Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Quasi-Judicial

Purpose of report

For Council to consider an amendment to Development Approval 181/2012 at Lot 2 (154) Epsom Avenue, Belmont.

The original 2012 approval allowed for an 'Educational Establishment' with five staff and 26 students. The proposed amendments include increasing the maximum attendance to nine staff and 48 students, along with an updated site plan.

Council previously considered the proposal at the 22 August 2023 Ordinary Council Meeting (OCM) and resolved to defer determination to allow the applicant to have further discussions with City officers and other parties in relation to parking.

Summary and key issues

- The 'Educational Establishment' was originally granted Development Approval in 2012 (181/2012). This was based on five staff and 26 students using 12 onsite parking bays (inclusive of one accessible bay).
- The current application seeks to amend the approval by inserting a condition to increase the numbers to nine staff and 48 students, and to update the site plan to represent the current parking layout.
- At the 22 August 2023 OCM, Council resolved to defer determination of the application.
- The applicant has subsequently entered into a shared parking arrangement with the owner of 81-91 Leake Street, Belmont, for the use of 34 car parking bays.
- Officers consider that the proposed on-site and off-site parking is sufficient to accommodate the proposed nine staff and 48 students. This is supported subject to conditions that:
 - Secure the shared parking arrangement and the requirement for it to be maintained.
 - Address scenarios where the shared parking arrangement is terminated, suspended, or otherwise ceases. In such cases, staff and student numbers are to revert to those originally approved.
 - Require the implementation of a Parking Management Plan.
- It is recommended that Council approve the application subject to conditions.

Officer Recommendation

That Council approve planning application 181/20121DAAM/B as detailed in plans dated 2 May 2023 submitted by Rowe Group on behalf of the owner A M Wragg and D T W Munrowd-Harris for the amendment of Development Application 181/2012 at Lot 2 (No. 154) Epsom Avenue, Belmont subject to the following conditions:

1. All conditions of the development approval 181/2012 and 81/2012/DAAM/A dated 22 November 2012 and 25 January 2013 are to be satisfied, with the exception of amended Condition 1 and new Conditions 8, 9, 10, 11 and 12 as follows.

Condition 1 is amended as follows:

1. Development/land use shall be in accordance with the attached approved plan(s) dated 22 November 2012 and amended plans dated 25 January 2013 and 2 May 2023, and subject to any modifications required as a consequence of any condition(s) of this approval. The endorsed plans shall not be modified or altered without the prior written approval of the City.

The addition of the following new conditions:

8. Prior to commencement of the use, the landowner shall modify the Parking Management Plan to include:
 - An attachment of the confirmation letter/email sent to students and visitors prior to their attendance at the site, which is to include the following:
 - Instructions for attendees who intend to drive to the facility to use onsite parking bays at 154 Epsom Avenue, or the parking bays at 81-91 Leake Street.
 - Provide clear directional instructions, including a map, that shows the location of the parking bays at 81-91 Leake Street in relation to 154 Epsom Avenue.
 - Provide information on bike storage and end of trip facilities available onsite.
 - Provide information on the public transport options available to access the site.

- Under Section 10, provide instructions for the operator to confirm where students have parked upon their arrival, and to request attendees relocate to onsite bays at 154 Epsom Avenue or bays at 81-91 Leake Street for the duration of their stay at the site.
 - Delete Section 12, Point b) which refers to free public parking bays on Wright Street.
 - Amend Section 16, Point g) to read: Students and staff will be encouraged and informed prior to attendance of the public transport options available to attend the site.
9. The landowner must maintain the car parking licence agreement dated 16 February 2024 with the Department of Fire and Emergency Services (Parking Licence) to provide parking for the approved Educational Establishment.
10. Subject to the Parking Licence remaining in place, there shall be no more than 48 students and 9 staff on site at any given time.
11. In the event that the Parking Licence is terminated, suspended or otherwise ceases:
- a) the landowner must immediately inform the City, and
 - b) there shall be no more than 26 students and 5 staff on site at any given time.
12. Prior to commencement of the use, the landowner shall implement the approved Parking Management Plan (as well as any subsequently updated and approved versions of the Parking Management Plan) to the satisfaction of the City.

Location

The subject site is on the south-western side of Epsom Avenue and forms part of the Epsom Avenue Commercial Centre. The subject site is bounded by commercial land to the north-west, and residential land to the south-west and south-east. Figure 1 below shows the subject site outlined in red.

The car park at 81-91 Leake Street subject to the shared parking arrangement is shown in Figure 1 below outlined in blue. The site forms part of the Department of Fire and Emergency Services (DFES) Belmont Regional Office. The site features a gated car park at the junction of Durban Street and Leake Street. Presently, this car park is not utilised by DFES, and has historically been used for DFES training purposes.

Figure 1: Aerial showing the site outlined in red, and DFES parking in blue

Consultation

The original application was advertised from 17 July 2023 until 31 July 2023.

The comments made in the original submissions, together with the officer response are summarised and provided in the 23 August 2023 OCM Minutes under Attachment 12.1.2.

The amended proposal that includes the shared parking arrangement with 81-91 Leake Street was not re-advertised. This is on the basis that what has been applied for has not changed, and the amendments proposed since the initial advertising period have substantially reduced the potential impacts on the surrounding area.

Strategic Community Plan implications

In accordance with the 2020–2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.5 Engage and consult the community in decision-making.

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations.

Policy implications

There are no policy implications associated with this report.

Statutory environment

The State and Local legislative frameworks used for the assessment and determination of this application are the same as that documented in Item 12.1 of the 22 August 2023 OCM minutes.

Planning and Development (Local Planning Schemes) Regulations 2015 (WA)

Further to the above, it is noted that Schedule 2, Part 9A, Clause 77D of the *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations) allows the local government to have regard to the availability of off-site parking facilities.

Clause 77D (2) states the following:

- (2) The local government must not vary or waive a minimum on-site parking requirement under subclause (1) in relation to development unless the local government is satisfied:
 - (a) that reasonable efforts have been made to comply with the minimum on-site parking requirement without adversely affecting access arrangements, the safety of pedestrians or persons in vehicles, open space, street trees or service infrastructure; and
 - (b) that –
 - (i) in the case of a variation — the lower number of car parking spaces would be adequate for the demands of the development, having regard to the likely use of the car parking spaces, the availability of off-site parking facilities and the likely use of alternative means of transport; or
 - (ii) in the case of a waiver — it is not necessary for car parking spaces to be provided as part of the development, having regard to the availability of off-site parking facilities and the likely use of alternative means of transport.

Clause 77Q sets out provisions in respect to shared parking arrangements.

Deemed Refusal

Under Clause 75 of the deemed provisions of the Regulations, an application is 'deemed to be refused' if it is not determined within a 90-day period.

Once this period lapses, the applicant gains the right to appeal the decision. Importantly, if the applicant decides not to exercise their right to appeal, the City still maintains the ability to issue a determination.

The deemed refusal date for this application passed on 1 July 2023 and the applicant already has deemed refusal rights. The applicant has corresponded with the City regarding the Council meeting dates, and has elected not to exercise their appeal rights, and instead allow the City to determine the matter.

Right of Review

Is there a right of review? Yes No

The applicant/owner may make an application for review of a planning approval/planning refusal to the State Administrative Tribunal (SAT) subject to Part 14 of the *Planning and Development Act 2005*. Applications for review must be lodged with SAT within 28 days. Further information can be obtained from the SAT website—www.sat.justice.wa.gov.au.

Background

Lodgement Date:	20 May 2023	Use Class:	D – Education Establishment
Lot Area:	911m ²	TPS Zoning:	Commercial
Estimated Cost of Development:	Nil	MRS:	Urban

Development Approval (181/2012) for an 'Education Establishment' was issued in November 2012. An amendment was approved in May 2013, which included minor modifications to the building. The original and modified approved plans can be found in Attachments 12.1.3 and 12.1.4.

The site currently operates as a 'Trainwest' training facility. The approved facility is two storeys in height and contains two training rooms and amenities on the ground floor, with offices and a meeting room on the first floor. There are 12 existing on-site car parking spaces inclusive of one accessible bay.

The 2012 approval was based on the attendance figures put forward by the applicant at that time, which was five staff and 26 students. These attendance figures complied with the Local Planning Scheme No. 15 (LPS 15) parking requirements of one bay per four students on the basis that there was five staff bays and seven student bays.

In July 2022, the City notified the operators of evidence that there were more than 26 students attending the premises. This meant that there was insufficient onsite parking to comply with the LPS 15 parking requirements.

In response, the training centre operator took steps to manage student numbers. Continued monitoring of the situation indicates that the training centre now operates in alignment with the approval.

In May 2023, the applicant lodged an application to modify the original approval. This included increasing to nine staff and 48 students, along with updating the site plan to represent the current onsite parking layout (development plan provided as Attachment 12.1.1).

Summary of 23 August 2023 Ordinary Council Meeting Item

Council previously considered this proposal at the 22 August 2023 OCM.

The report presented by officers considered the appropriateness of the increase in staff and student numbers based on the following:

- The LPS 15 onsite parking requirements
- The suitability of off-site parking
- The appropriateness of management measures.

In the report officers presented that the parking standards of LPS 15 do not reflect the parking needs for the specific land use operating at the subject property. This view was formed through observations which showed that on-site bays were consistently full, and that there was a high usage and dependency on public parking bays in Epsom Avenue.

The report acknowledged that the Epsom Avenue bays are public bays and can be used by staff and students. However, it was observed that the number of bays used exceeded reasonable use. Based on the observations, increasing numbers would exacerbate the use of the public bays. This was not deemed equitable in the context of the precinct.

Whether parking demand could be managed through the implementation of a Parking Management Plan was also considered. It was concluded that while a Parking Management Plan may assist, the plan would not reduce parking demand to the extent needed to justify the requested increase in numbers.

Given the above, it was recommended to limit the training centre to 26 students and five staff, consistent with what was proposed under the 2012 approval.

At the August 2023 OCM, Council resolved to defer determination of the application to allow the applicant to have further discussions with City officers and other parties in relation to parking.

A copy of the 22 August 2023 OCM Minutes can be found in Attachment 12.1.2.

Report

To determine the appropriateness of the proposed increase to staff and student numbers, it is necessary to consider the following:

- Details of the shared parking arrangement.
- Proximity to the subject site.
- Number of parking bays.
- The suitability of parking management measures.

These matters are discussed under the relevant headings below.

Details of the shared parking arrangement

The shared parking arrangement has been entered into between the owners of 154 Epsom Avenue (A M Wragg and D. Munrowd-Harris) and the owners of 81-91 Leake Street (Department of Fire and Emergency Services).

The shared parking arrangement includes the following provisions:

- The non-exclusive use of the parking area on 81-91 Leake Street (consisting of 34 marked bays) for A M Wragg and D T W Munrowd-Harris and Trainwest.
- Use between 7.45am and 4.30pm during weekdays.
- Indemnification of DFES for any loss or damages.
- The ability for DFES to terminate or suspend the agreement within 90 days of providing written notice.

A copy of the shared parking arrangement can be found at Attachment 12.1.5.

It is considered that the shared parking arrangement provides an appropriate mechanism for the bays at 81-91 Leake Street to be accessed and used by the training centre.

However, it is necessary for conditions to be applied to link the shared parking arrangement to the development approval and to cover the following matters:

- The requirement for the landowner to maintain the shared parking agreement dated 16 February 2024 with the owner of 81-91 Leake Street.
- For the increase in numbers to be subject to the shared parking arrangement remaining in place.
- To address scenarios where the shared parking arrangement is terminated, suspended, or otherwise ceases. This includes requirements for the landowner to immediately inform the City if any of the above occur, and if that occurs, for the number to revert to the originally approved 26 students and five staff.

Subject to the above conditions, it is considered that the shared parking arrangement provides an appropriate mechanism for access to the off-site bays at 81-91 Leake Street.

Proximity to the subject site

It is necessary to consider if the bays at 81-91 Leake Street are within usable distance and reasonably accessible to the training centre.

The bays at 81-91 Leake Street are 260 metres from the subject site via a footpath, as shown in Figure 2 below.

Figure 2: Image showing the existing public bays along Epsom Avenue

It is considered that the 260 metre distance is suitable for students and staff to access the site. This distance falls within the accepted 400 metre catchment used for urban planning purposes to determine if a site is within walking distance.

Given the above, the proximity of the off-site parking bays to the training centre is considered suitable.

Number of parking bays

As the arrangement for off-site bays is considered acceptable subject to conditions, it is necessary to consider the appropriateness of the overall parking scenario.

Table 1 below shows a breakdown of the on-site and off-site parking bays for the training centre.

Parking Location	Number of Bays
On Site (154 Epsom Avenue, Belmont)	12 bays (inclusive of 1 accessible bay)
81-91 Leake Street, Belmont	34 bays
Total	46 bays

Table 1 – Breakdown of available parking for the training facility.

The assessment of parking requirements in the 23 August 2023 OCM item found that the LPS 15 parking standards of one bay for every four students do not reflect the actual parking needs for the land use. It was considered that the realistic parking demand of the training centre was approximately one bay per student.

With 46 bays now available across both sites, the parking bays to student/staff ratio is one bay per 1.04 students/staff. Given the previous observations of the training facility, it is considered that the proposed 46 parking bays is suitable to allow for an increase in students to 48 and staff to nine.

Suitability of parking management measures

The applicant has submitted a revised Parking Management Plan to support the increase in numbers and the effectiveness of the shared parking arrangement. This plan can be found at Attachment 12.1.6.

The Parking Management Plan includes the following measures:

- Prior to attendance at the building, all students, staff and visitors are to receive a confirmation letter/email that details:
 - All attendees are fully aware of parking arrangements and receive sufficient instruction to ensure parking compliance is maintained.
 - All attendees are fully informed of parking arrangements and restrictions at the site and within the nearby public parking area.
 - The promotion of carpooling and non-car based travel modes including information on public transport, bicycle racks and end of trip facilities.
- Provision of a Parking Manager (trained staff member) to ensure compliance with the Parking Management Plan.

The applicant also notes the following management measures in respect to the off-site bays at 81-91 Leake Street:

- Trainwest staff will unlock the gates to the car park at 7.45am, with the gates then being locked at 4.30pm.
- In the unlikely event that the DFES car park is unavailable, students will be emailed prior to attending and advised of limited parking availability. They will be encouraged to consider other options such as public transport and carpooling.

Should Council determine to approve the application, it is recommended that a condition be imposed to require the Parking Management Plan be amended to incorporate the following:

- The applicant is to provide an attachment of the confirmation letter/email sent to students and visitors prior to their attendance at the site, which is to include the following:
 - Instructions for students and visitors who intend to drive to the facility to use onsite parking bays at 154 Epsom Avenue, or the parking bays at 81-91 Leake Street.
 - Clear directional instructions, including a map, that shows the location of the parking bays at 81-91 Leake Street in relation to 154 Epsom Avenue.
 - Information of the bicycle storage and end of trip facilities available onsite for use.
 - Information on available public transport options.
- Under Section 10, provide instructions for the operator to confirm where students or visitors have parked upon their arrival, and request students relocate to onsite bays or bays at 81-91 Leake Street for the duration of their stay at the site.

- Delete Section 12, Point b) which refers to free public parking bays on Wright Street.
- Amend Section 16, Point g) to read: Students and staff will be encouraged and informed prior to attendance of the public transport options available.

In addition, a separate condition is recommended to require the implementation of the Parking Management Plan.

It is considered that the shared parking arrangement for off-site bays, Parking Management Plan, and recommended conditions establishes an appropriate framework for parking for the training centre.

However, it is important to acknowledge that this arrangement does not prevent users of the training centre from using nearby public bays. It is noted that when the matter was previously considered, one of the key concerns was that an increase in numbers would lead to nearby public bays being unreasonably relied on. Importantly, this view was formed when there was not a shared parking arrangement in place.

In the context of the current shared parking arrangement, Parking Management Plan and recommended conditions, it is considered that the public bays in Epsom Avenue will not be unreasonably relied on in lieu of dedicated training centre parking bays.

Amended Site Plan

The applicant has also applied to amend the approved site plan as follows:

- To reflect the existing onsite parking layout. This does not change the overall number of bays onsite but shifts the location of the accessible parking bay from the front of the site to its existing central location, and reflects the concrete finish of the bays. Figure 3 shows an extract of the amended plan with changes clouded in red.

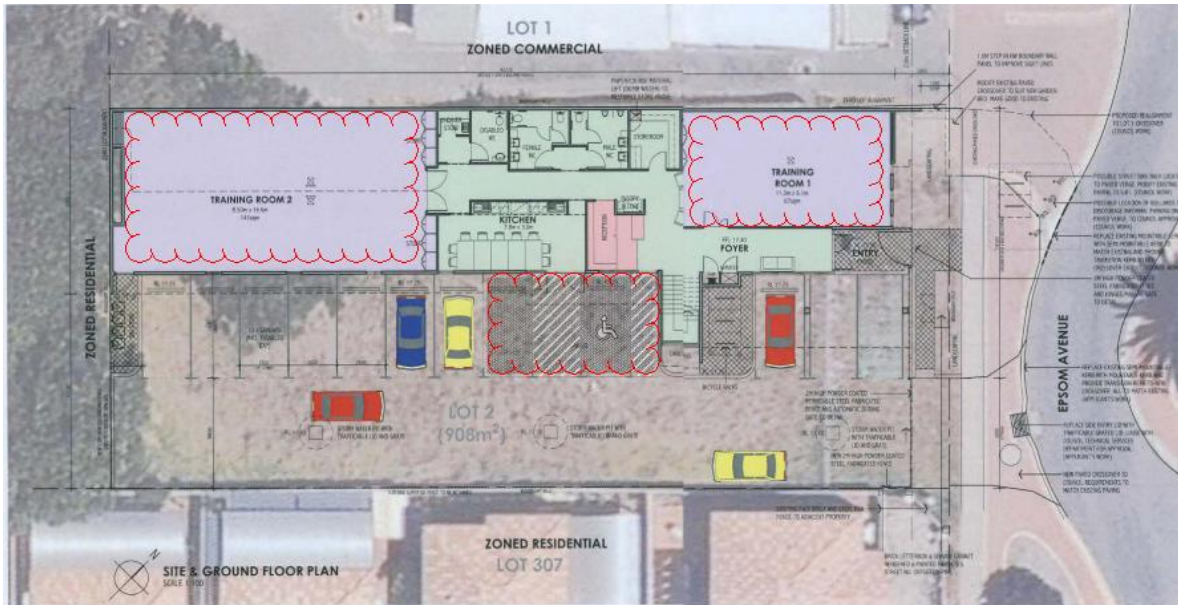

Figure 3 Extract of the amended plan with changes clouded in red.

- To remove the indicative seating plan from the floor plan, as the indicative seating plan reflected the 26 students that formed the basis of the original application.

In respect to the parking plan amendment, this is considered acceptable as it results in no changes to the overall number of bays and aligns with the approved building permit.

The removal of the indicative seating arrangement is also supported on the basis that maximum student numbers are more appropriately dealt with through a condition which provides greater clarity.

Conclusion

The proposal comprises of two components, being modifications to the site plan and an increase to student and staff in numbers.

The requested modifications to the site plan are minor in nature and are supported.

Regarding the requested increase in numbers, it is considered that the shared parking arrangement at 81-91 Leake Street, Parking Management Plan, and recommended conditions make the increase to nine staff and 48 students acceptable.

Based on the above, it is recommended that the proposal be approved subject to conditions.

Financial implications

There are no financial implications evident at this time.

Environmental implications

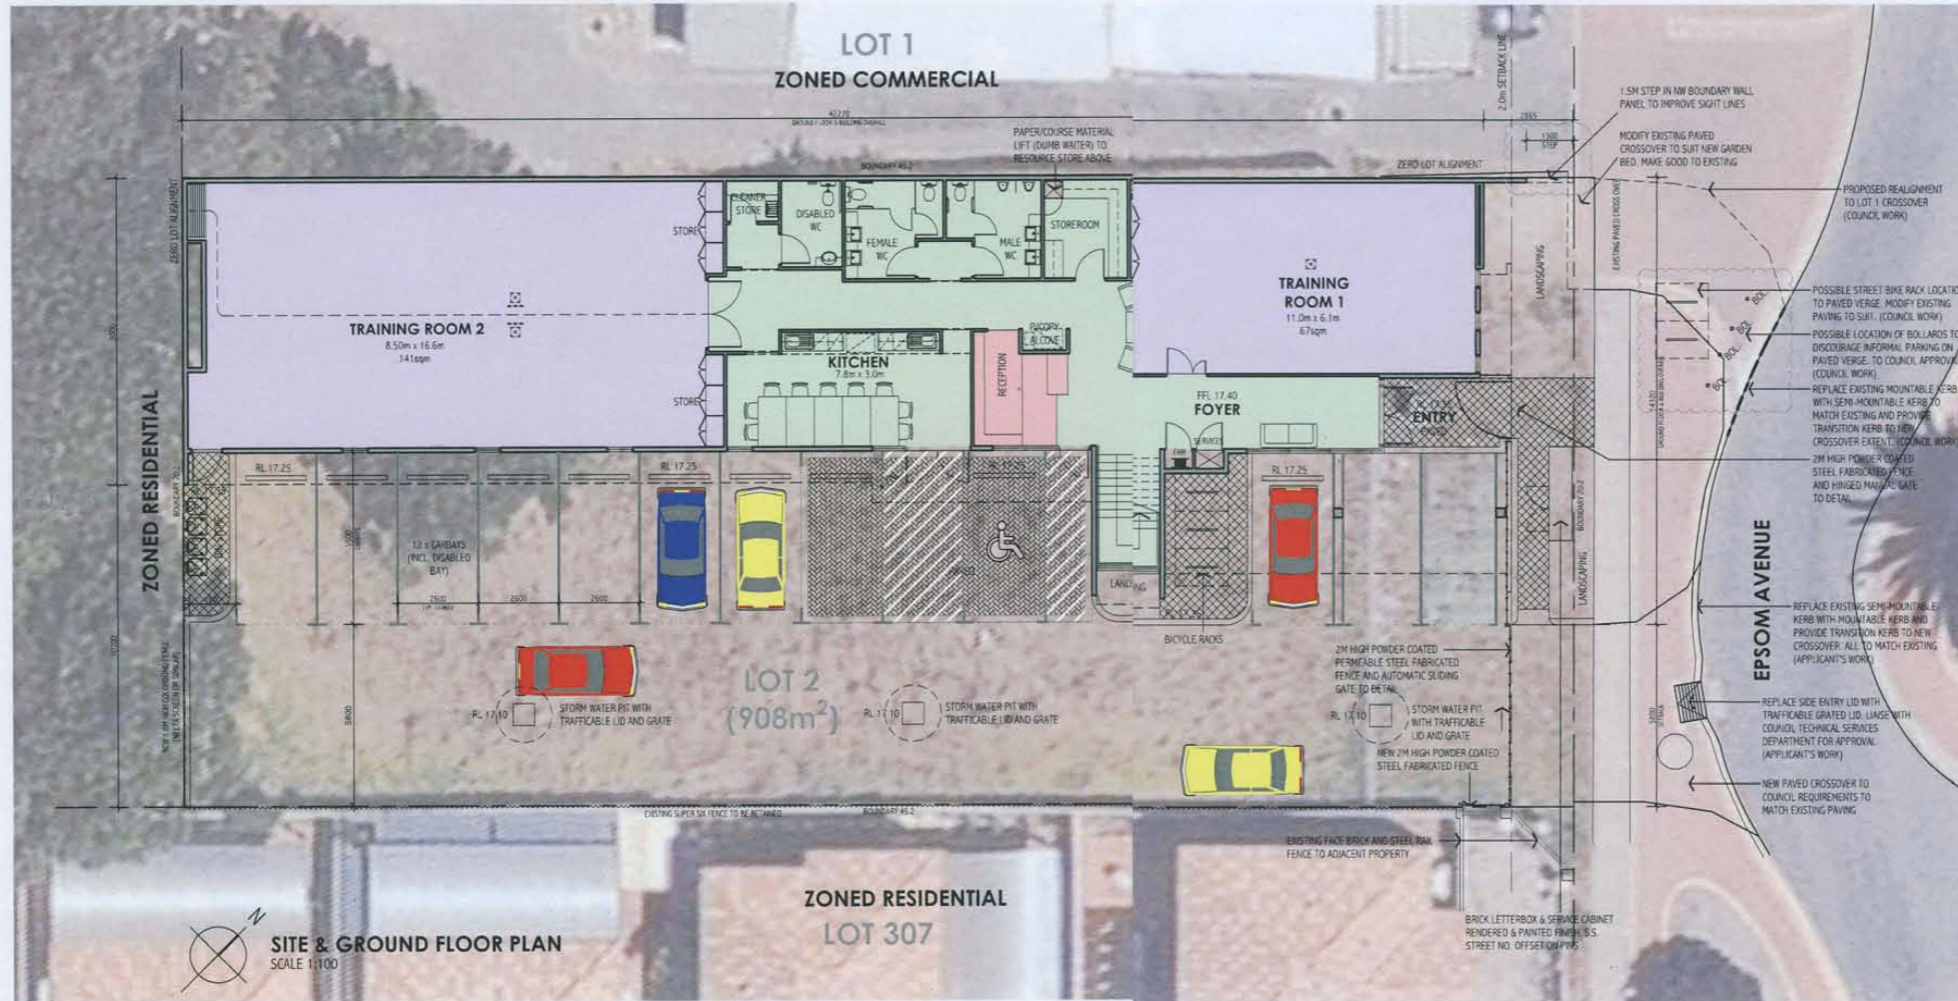

There are no environmental implications associated with this report.

Council role

When Council determines an application/matter that directly affect a person's right and interests. The judicial character arises from the obligation to abide by the principles of natural justice.

Quasi-Judicial

Examples of quasi-judicial authority include local planning applications, building licences, applications for other permits/licences (eg under Health Act, Dog Act or Local Laws) and other decisions that may be appealable to the State Administrative Tribunal.

Purpose of report

For Council to consider an amendment to Development Approval 181/2012 at Lot 2 (154) Epsom Avenue, Belmont. The original approval allowed for an 'Educational Establishment' with five staff and 26 students. The proposed changes include increasing to nine staff and 48 students, along with a site plan update (Attachment 12.1.3) to represent the current parking layout.

Summary and key issues

- The 'Educational Establishment' was originally granted Development Approval in 2012 (181/2012). This was based on five staff and 26 students using 12 onsite parking bays (inclusive of one accessible bay).
- The current application seeks to amend the approval by inserting a condition to increase the number of staff to nine and students to 48, and to update the site plan to represent the current parking layout.

- The proposal was advertised for public comment, with six submissions received.
- The officer assessment has found that the onsite parking does not cater for the current staff and student numbers. Accordingly, there is a high level of use of public bays in Epsom Avenue.
- It is considered that the Parking Management Plan (Attachment 12.1.2) would not effectively facilitate parking for additional students or staff.
- It is recommended that Council approve the updated site plan that reflects the current parking layout and apply a condition restricting the facility to a maximum of 26 students and five staff.

Officer Recommendation

That Council approve planning application 181/2012/DAAM/B as detailed in plans dated 2 May 2023 submitted by Rowe Group on behalf of the owner A M Wragg and D T W Munrowd-Harris for the amendment of Development Application 181/2012 at Lot 2 (No 154) Epsom Avenue, Belmont subject to the following conditions:

1. All conditions of the development approval 181/2012 and 181/2012/DAAM/A dated 22 November 2012 and 25 January 2013 are to be satisfied, with the exception of amended Condition 1 and new Conditions 8, 9 and 10 as follows.

Condition 1 is amended as follows:

1. Development/land use shall be in accordance with the attached approved plan(s) dated 22 November 2012 and amended plans dated 25 January 2013 and 2 May 2023, and subject to any modifications required as a consequence of any condition(s) of this approval. The endorsed plans shall not be modified or altered without the prior written approval of the City.

The addition of the following new conditions:

8. There shall be no more than 26 students and five staff on the site at any given time.
9. Prior to commencement of the use, the landowner shall modify the Parking Management Plan to reflect that there shall be no more than 26 students and five staff on the site at any given time.
10. Prior to commencement of the use, the landowner shall implement the approved Parking Management Plan (as well as any subsequently updated and approved versions of the Parking Management Plan) to the satisfaction of the City.

Note:

Cr Davis put forward the following Procedural Motion, in accordance with sections 11.1(g) and 18.1 of the *City of Belmont Standing Orders Local Law 2017*.

Procedural Motion

Davis moved, Sekulla seconded

That the item be referred back to a Council briefing as per sections 11.1(g) and 18.1 of the Standing Orders.

Carried 6 votes to 1

For: Davis, Rossi, Ryan, Sekulla, Sessions and Wolff

Against: Carter

Reason

For the applicant to have discussions with Council officers and other parties in relation to parking and then to further brief Council in due course.

Location

The subject site is located on the south-western side of Epsom Avenue, and forms part of the Epsom Avenue Commercial Centre. Figure 1 shows the subject site outlined in red. The site is bounded by commercial land to the north-west, and residential land to the south-west and south-east.

Figure 1: Aerial showing the site outlined in red

Consultation

The application was advertised for a period of 14 days commencing 17 July 2023 and concluding 31 July 2023. Figure 2 shows the extent of advertising. Both owners and occupiers were included in the consultation process.

Figure 2: Image showing extent of advertising.

During the advertising period a total of six submissions were received, all objecting to the application. The issues raised in the objections include:

- Parking restrictions
- Parking of vehicles blocking private driveways
- Students occupying public bays and the consequent lack of availability of public bays.

The comments made in the submissions, together with the officer response are summarised and provided in Attachment 12.1.1.

Strategic Community Plan implications

In accordance with the 2020 – 2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.5 Engage and consult the community in decision-making

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations

Policy implications

There are no policy implications associated with this report.

Statutory environment

Local Planning Scheme No. 15

The proposal seeks an amendment to the development approval for an 'Education Establishment'. Local Planning Scheme No. 15 (LPS 15) provides the following definition for 'Education Establishment':

"Education Establishment means premises used for the purposes of education and includes a school, tertiary institution, business college, academy, or other education centre".

'Education Establishment' is listed as a 'D' use within the 'Commercial' zone, which the subject site is zoned. A 'D' use means that the use is not permitted unless the local government has exercised its discretion by granting Development Approval.

Local Planning Scheme No. 15 states that the objective of the 'Commercial' Zone is:

"The Town Centre and Commercial Zone is intended to provide for the retail commercial function and entertainment."

Clause 4.16 of LPS 15 contains the car parking requirements for uses. Clause 4.16.4 (1) states:

"(1) The number of spaces to be provided in respect of any particular site shall be determined by the local government, having regard to the nature of the use and

the known or likely volume of goods, materials or people moving to and from the site. Subject to any provision of the Scheme to the contrary the number of car parking spaces shall be in accordance with the requirements of Table 2.”

Table 2 of LPS 15 applies the following car parking rate for ‘Educational Establishments’:

“Education Establishment (Other) – 1 space for every 4 students the establishment is designed to accommodate.”

Planning and Development (Local Planning Schemes) Regulations 2015

The ability to amend an approval granted is outlined in *Planning and Development (Local Planning Schemes) Regulations 2015* (the Regulations). Schedule 2, Part 9, Clause 77 of the Regulations allows an applicant to seek amendments to an approved development.

Clause 77 (1) states the following:

- (1) An owner of land in respect of which development approval has been granted by the local government may make an application to the local government requesting the local government to do any or all of the following:
 - (a) To amend the approval so as to extend the period within which any development approved must be substantially commenced;
 - (b) To amend or delete any condition to which the approval is subject;
 - (c) To amend an aspect of the development approved which, if amended, would not substantially change the development approved;
 - (d) To cancel the approval.

Clause 77 (2) states:

- (2) An application under subclause (1)-
 - (a) is to be made in accordance with the requirements in Part 8 and dealt with under this Part as if it were an application for development approval; and
 - (b) may be made during or after the period within which the development approved must be substantially commenced.

As the amendment is to be dealt with under Part 8 of the Regulations, the matters listed under Clause 67 (2) of the Regulations are to be considered during the assessment of this application.

Clause 77 (4) states:

- (4) The local government may determine an application made under subclause (1) by-
 - (a) Approving the application without conditions; or
 - (b) Approving the application with conditions; or
 - (c) Refusing the application.

Schedule 2 Part 9 Clause 67(2) of the Planning Regulations states the matters to be considered by local government in determining a development application. In summary, the following matters are of particular relevance to this application:

- (a) The aims and provisions of this Scheme and any other local planning scheme operating within the Scheme area.
- (b) The requirements of orderly and proper planning.
- (m) The compatibility of the development with its setting including the compatibility of the development with the desired future character of its setting.
- (s) The adequacy of -
 - i. The proposed means of access to and egress from the site; and
 - ii. Arrangements for the loading, unloading, manoeuvring and parking of vehicles.
- (w) The history of the site where the development is to be located;
- (x) The impact of the development on the community as a whole notwithstanding the impact of the development on particular individuals.
- (y) Any submissions received on the application.

Deemed Refusal

Under Clause 75 of the deemed provisions of the *Planning and Development (Local Planning Schemes) Regulations 2015*, an application is 'deemed to be refused' if it is not determined within a 60-day period.

The only exception is where there is a written agreement for a further time between the applicant and the City of Belmont. In this case, there is no written agreement for the statutory time period to be extended.

The deemed refusal date for this application passed on 1 July 2023 and the applicant already has deemed refusal rights.

Right of Review

Is there a right of review? Yes No

The applicant/owner may make an application for review of a planning approval/planning refusal to the State Administrative Tribunal (SAT) subject to Part 14 of the *Planning and Development Act 2005*. Applications for review must be lodged with SAT within 28 days. Further information can be obtained from the SAT website—www.sat.justice.wa.gov.au.

Background

Lodgement Date:	2 May 2023	Use Class:	D – Educational Establishment
Lot Area:	911m ²	TPS Zoning:	Commercial
Estimated Cost of Development:	Nil	MRS:	Urban

Existing Development and Approval Background

Development Approval (181/2012) for the 'Education Establishment' was issued in November 2012. An amendment was approved in May 2013 which included minor modifications to the building. The original and modified approved plans can be found in Attachments 12.1.4 and 12.1.5.

The site currently operates as a 'Trainwest' training facility. The approved facility is two stories in height and contains two training rooms and amenities on the ground floor, with offices and a meeting room on the first floor. There are 12 existing on site car parking spaces inclusive of once accessible bay.

This 2012 approval was based on the attendance figures put forward by the applicant at that time, which was five staff and 26 students. These attendance figures complied with the LPS 15 parking requirements of one bay per four students on the basis that there was five staff bays and seven student bays.

In July 2022, the City notified the operators of evidence that there were more than 26 students attending the premises. This meant that there was insufficient onsite parking to comply with the LPS 15 parking requirements.

In response, the training centre operator took steps to manage student numbers in response to the concerns raised. Continued monitoring of the situation indicates that the training centre now generally operates with a maximum of 26 students.

Public Parking in the Epsom Avenue Commercial Centre

When assessing this proposal, it is necessary to consider the parking context of the Epsom Avenue Commercial Centre. There are currently 59 public car parking bays adjacent to the Commercial Centre, within the Epsom Avenue road reserve.

In July 2022 Council received a petition from the community raising concerns about public parking availability and length of stay in the Epsom Avenue public carpark.

At the October 2022 Ordinary Council Meeting (OCM), Council resolved to install parking sensors and enforce parking time restrictions in the public parking bays within Epsom Avenue. These sensors have now been installed.

The parking time restrictions are as follows:

- Area A (25 bays total) 2hr limit;
- Area B (14 bays total) 1hr limit;
- Area C (20 bays total) no time restriction.

These parking restrictions are shown in Figure 3 below:

Figure 3: Image showing the existing public bays along Epsom Avenue

As some of the commercial properties at this Epsom Avenue Centre were historically developed with no onsite parking bays, the unrestricted bays (Area C) are intended to cater for this.

As part of the motion proposed by Councillors at the 25 October 2022 OCM (Item 12.2) and subsequently amended at the 27 June 2023 OCM (Item 13.2.2), officers have been tasked with evaluating the impact of the new parking restrictions. This review will take place three months after the installation of the parking sensors.

Parking arrangements for other sites in the Epsom Avenue Commercial Centre

Table 1 below summarises the current approvals of the commercial properties along Epsom Avenue, including the parking requirements and availability for each site.

Table 1: Summary of current approvals and required/provided parking			
Address/Site	Approved Land Use	LPS 15 Parking Requirement	Parking Availability Onsite
Lot 88 (142) Epsom Ave, Belmont (BWS)	Liquor Store	Shop – 11.82 (12 bays required)	5 informal parking to rear of building
Lot 85 (146) Epsom Ave, Belmont (Jacaranda Community Centre)	Community Purpose	Office - 8 bays required	Nil parking onsite
Lot 86 (148) Epsom Ave, Belmont (Pharmacy 777)	Shop	Shop - 12 bays required	Nil parking onsite
Lot 87 (150) Epsom Ave, Belmont (Super Deli)	Shop	Shop – 9 bays required	Nil parking onsite
Lot 1 (152) Unit 1 Epsom Ave, Belmont (Epsom Fish and Chip)	Restaurant/ take-away	Restaurant/ take-away – 3.4 (4) bays required	Allocated 3 bays onsite
Lot 1 (152) Unit 2 Epsom Ave, Belmont (Barber Shop)	Shop	Shop – 3.4 (4) bays required	Allocated 3 bays onsite
Lot 1 (152) Unit 3 Epsom Ave, Belmont (Office)	Office	Office - 9 bays required	Allocated 5 bays onsite

It is noted that development at 146 and 148 Epsom Avenue have no onsite parking and were dealt with as follows.

146 Epsom Avenue

- Council approved a change of use of this property at the 22 February 2011 OCM (Item 12.6).
- This change of use was for a Community Purpose land use (Jacaranda Community Centre).
- To calculate the parking requirement in this application the Scheme parking rate for 'office' was used.
- Following this approach, it was considered that eight bays were required for the use. A study of the public parking was done during the assessment.
- It was considered that there was no change in the required number of parking bays from the past and proposed use, and the off-site parking bays were sufficient to cater for the use.

148 Epsom Avenue

- Council approved additions to the existing Pharmacy at this property at the 20 May 2008 OCM (Item 12.1.1).

- Site inspections showed that the requirement for parking within the off-site reciprocal use bays was at approximately 48.81% capacity. It was considered that a minimal increase in retail floor area will not significantly impact on the availability of parking for other businesses within the Epsom Avenue Commercial Centre.
- It was considered that the off-site parking bays were sufficient to cater for the use.

Report

To determine the appropriateness of the proposed increase to staff and student numbers, it is necessary to consider the following:

- The LPS 15 onsite parking requirements
- The suitability of off-site parking
- The appropriateness of management measures.

These matters are discussed under the relevant headings below.

Local Planning Scheme No 15 Onsite Parking Requirements

While the applicant asserts compliance with the LPS 15 parking requirements in their proposal, a more comprehensive review is necessary. This review should not only focus on conformity to LPS 15 parking standards, but also assess the overall suitability of parking for the subject use in the context of the locality. This includes examining the site's history, specifically the existing operations based on the 2012 application, and the actual parking needs for the proposed use.

Table 2 of LPS 15 categorises the 'Education Establishment' land use into several subcategories. The current use falls into the 'Education Establishment – Other' category, which requires one bay per four students. It is noted that this rate does not have specific requirements for staff parking. The applicant submits that based on the existing 12 onsite bays, the proposed 48 students is compliant with the Scheme's standard. While this may be the case, it is necessary to consider the actual parking demands for this specific use and the adequacy of parking bays to cater for it. As an amendment application there is the benefit of assessing actual operations at the subject property.

The City undertook parking observations over a three week period (from 3 July 2023 – 24 July 2023). The following was observed:

- Officers attended the site on nine mornings over the three-week period at 8.00am.
- At 154 Epsom Avenue, all 11 onsite bays were occupied consistently, in addition to a couple of cars informally parking within the driveway.
- An average of two students parked within the 1 hour or 2 hour bays public bays.
- An average of 10 students parked within the 14 unrestricted public bays.

- Staff attending the education establishment also park to the rear of 152 Epsom Avenue.
- On eight out of the nine days of observation it was noted that all unrestricted bays were occupied before 8.18am.
- All unrestricted bays were occupied by 8.47am at the latest among the days officers attended the site.
- On average over the nine days, 26 parked vehicles per day were associated with people attending the education establishment at 154 Epsom Avenue.

Based on the above, it is considered that the Table 2 parking standards of LPS 15 do not reflect the parking needs for the land use at the subject property. It is considered that the observations form the appropriate basis for this assessment. It demonstrated that the onsite bays were fully used, and that there is an unreasonably high dependency on public parking bays. Accordingly, the onsite parking for the use is considered inadequate to cater for an increase in students.

Suitability of Off-Site Parking

It is acknowledged that the Epsom Avenue bays are public bays and can be used by students. As shown by the above observations, the current operation already relies heavily on the use of public bays to meet its parking needs.

When assessing the appropriateness of using public bays, it is necessary to consider how students use them. Unlike other short visit uses in the precinct (i.e. shop/retail type uses), students will typically use bays for an extended time. In the context of the Epsom Avenue bays, this is an issue, as there is only a small number of bays (14 of 59) that allow parking longer than two hours.

It is necessary to acknowledge that there are some uses in the Centre that have no onsite bays and also rely on public bays. However, the current student demand for unrestricted public bays consistently exceeds the reasonable use of these spaces compared to the other properties.

Based on the observations of parking, increasing student and staff numbers would exacerbate unreasonable use of public bays, and is not equitable in the context of the precinct. Accordingly, the off-site parking for the use is not considered adequate to cater for an increase in students or staff.

Parking Management Plan

Consideration needs to be given to whether parking demand can be managed to the extent that an increase in students and staff is acceptable.

The applicant has provided a Parking Management Plan as part of their application (Attachment 12.1.2). The Management Plan aims to encourage students to utilise public transport, carpooling and non-car transport options and will inform attendees to the site of the parking restrictions and options before they attend the site.

The continual changeover of students from course to course undermines the effective implementation of standing parking management measures. Moreover, the management plan lacks clear implementation strategies to require compliance by students and staff, which casts doubt over its effectiveness. While a Parking Management Plan may assist, it is doubted that the plan will reduce parking demand to an acceptable level to justify the requested increase in student and staff numbers.

However, given the findings in respect to parking availability and usage for the current student and staff numbers, it is considered necessary for the Parking Management Plan to be implemented, irrespective of any increase in numbers.

Amended Site Plan

The applicant has also applied to amend the approved site plan. This amendment seeks the following:

- To reflect the existing onsite parking layout. This does not change the overall number of bays onsite, but shifts the location of the accessible parking bay from the front of the site to its existing central location, and reflects the concrete finish of the bays. Figure 4 shows an extract of the amended plan with changes annotated in red.

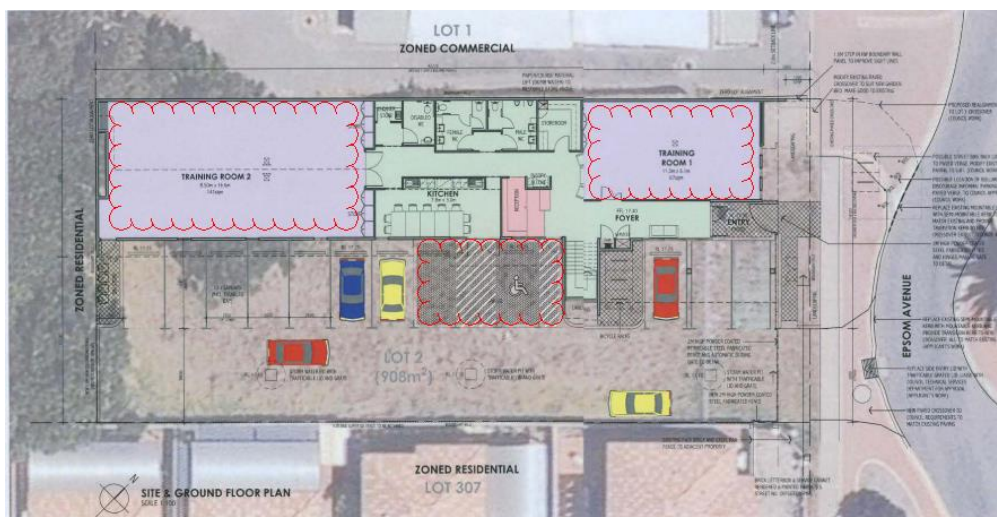

Figure 4 Extract of the amended plan with changes annotated in red

- To remove the indicative seating plan from the floor plan. This appears to be on the basis that the indicative seating plan reflected the 26 students that formed the basis of the original application.

In respect to the parking plan amendment, this is considered acceptable as it results in no changes to the overall number of bays and aligns with the approved building permit.

The removal of the indicative seating arrangement can also be supported. This is on the basis that maximum student numbers are more appropriately dealt with through a condition which provides greater clarity.

Recommended Approach

Based on the above findings, the following is considered appropriate:

- The revised site plan reflecting the existing on-site parking arrangements be approved.
- The applicant has requested a condition to accommodate an increase to 48 students and nine staff while providing clarity regarding the maximum number of people at the site. However, considering the findings on parking availability and usage, it is deemed appropriate for the condition to reflect no more than 26 students and five staff at any one time which is consistent with the original approval.
- Given the findings with respect to parking availability and usage for the current numbers, it is considered appropriate for the submitted Parking Management Plan to be implemented. This will require modification to reflect the limit on student and staff numbers.
- It is acknowledged that a review of the parking controls implemented on the Epsom Avenue public bays is due three months after the sensor commencing operation. It is noted that further controls to ensure equitable use of the public bays may be necessary as a result of the review.

Conclusion

As outlined in this report, based on the parking assessment and observations of the current parking demand at the training facility, it is deemed appropriate to apply a condition to limit the use to 26 students and five staff.

The revised site plan with amended parking layout that is reflective of the existing parking arrangement onsite is supported.

On this basis, it is recommended to approve the amended Development Application subject to conditions.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

CITY OF BELMONT
SCHEDULE OF SUBMISSIONS

Application Number: 181/2012/DAAM/B
Development Description: Amendment to Approval
Address of Development: 154 Epsom Avenue BELMONT 6104 (Lot 2 PL 5283)

No.	Name and Address	Description of Affected Property, Lot No., Street, etc.	Resume of Submission	Council Recommendation
1.	B. Wilkinson – 13 Moreing Street, Ascot	130 Epsom Avenue, Belmont	<p>Objection –</p> <ol style="list-style-type: none"> 1. As the owner of 130 Epsom Ave I am totally against this application gaining approval, due to parking issues in the precinct. 2. The City has tried to alleviate this problem by brining in sensored parking which has only shifted the problem elsewhere as they are now parking on peoples front verge. <p>To approve this application it will only exasperate the parking issue</p>	<ol style="list-style-type: none"> 1. The current parking issues at the Epsom Avenue commercial centre public bays cannot be resolved as part of this development application. However, as per Clause 67 (2) (s) and (w) of the Deemed Provisions, the adequacy of parking and the history of the site where the development is to be located are relevant matters to be considered. <p>It is noted that separately to this application At the October 2022 OCM Council resolved to install parking sensors and enforce parking time restrictions in the public parking bays within Epsom Avenue. These sensors have now been installed. As part of the motion put forward by Councillors at the June 2023 OCM, officers will be undertaking a review of the current parking controls and impact of the newly installed system three months after their install.</p> <ol style="list-style-type: none"> 2. An assessment of this application against; the LPS 15 Car Parking provisions; the suitability of the current off-site public parking in the Epsom Ave commercial centre; and the parking management plan proposed; has been undertaken during the assessment of this application. <p>Through the above assessment the City has determined that Conditioning a maximum of 26 students and 9 staff is appropriate for the site.</p>
2.	M. Celin – 146 Epsom Ave, Belmont	146 Epsom Ave, Belmont	<p>Objection –</p> <ol style="list-style-type: none"> 1. Unable to park to stay long enough for interviews. 	<ol style="list-style-type: none"> 1. The issues with the availabilities of public bays at the Epsom Avenue commercial centre are subject to a separate investigation referred to above.

Confirmed

Attachment 12.1.1 Submission Table

3.	B. Campbell - Unit 5/5 Edwards Crescent, Redcliff	Unit 5/5 Edwards Crescent, Redcliff	<p>Objection -</p> <p>1. One of the problems is the marked parking bays on Edwards crescent. People park over the driveway including transwest very often.</p> <p>I am hoping that a no stopping line an notification letters 'no stopping or parking over the driveway' please.</p> <p>I continue to get stuck in or can't access the driveway to my unit 5 number 5 edwards crescent Redcliffe. I do attend many hospital an doctors appointments regularly, I am late because of people parking over the driveway would contribute some of the cost thankyou</p>	<p>1. The issue with parking of vehicles blocking a private driveway is a matter that cannot be addressed within the proposed development application. Issues with parking are best directed to Rangers to investigate.</p> <p>As there will be a review of the public bays within the Epsom Avenue commercial centre area, including a revision of line markings and parking signage can be captured to reduce parking conflicts with private driveways.</p>
----	---	-------------------------------------	--	---

Attachment 12.1.1 Submission Table

4.	L. Fitzgerald – PO BOX 142 Cloverdale 6985	146 Epsom Ave Belmont	<p>Objection –</p> <p>1. We have had an issue with parking ever since the training centre had permission to build without community consultation.</p> <p>In an email from council I was originally told that at the time "the required number of bays for the training centre was denied from the City's Local Planning Scheme No 15 (LPS 15)..."</p> <p>"The proposal was assessed as being compliant and approved accordingly. However, this compliance with the requirements of LPS 15 was on the provision that the number of students at the facility was limited."</p> <p>At the time we were told they had adequate parking on their premises for 20 students. It seems they already have 26 + 5 staff.</p> <p>They were never assessed as using the car park across the road and telling their participants to get there close to 7.30am to ensure an all day park, nor was the community consulted.</p> <p>2. Under your ruling I was told there would be more people per car than the 1 which is currently happening. I was also told there would be a review soon as it wasn't feasible to believe people share the car that was over 2 years ago.</p> <p>We have tried to work with them on ways of not having so many participants park. We suggest companies car pool, companies hire a taxi van. We also suggested some of the training could be done at the companies as many come from the same company.</p> <p>At one stage there was even a suggestion that they were moving to a more suitable place.</p> <p>However, now from the invitation to comment we find that potentially they could will need parking for 57 people. In fact you might as well allocate the whole car park and side street to them.</p> <p>3. They are going to continually get there early to get the all day parks. We cant do that as my staff have children to get to school and so do clients. Even our work car which we share has to be continually moved as we need it for client home visits, meetings at child pick up, police, justice, health etc with clients.</p> <p>In the proposal "Availability of Public Parking" I am sure it should not be for training students to come early and use the unrestricted parking at the detriment of all other people being the area.</p>	<p>1. The original approval (181/2012) for the educational establishment use and included 5 staff and 26 students.</p> <p>Under the LPS 15, the parking rate applicable for Educational Establishments (Other) is 1 bay per 4 students. The original application provided 12 onsite bays meaning the application complied with the LPS 15 parking requirement.</p> <p>Due to the proposal complying with the parking requirements of the scheme the application was not advertised and assessment of the public bays was not required.</p> <p>2. These items do not specifically relate to the proposal currently under assessment.</p> <p>It is noted that the applicant has proposed a Parking Management Plan to justify an increase in student numbers. This plan has been assessed as part of this application. refer to the Council report for finding relating to the suitability of the Parking Management Plan.</p> <p>3. The availability of public parking formed part of the assessment of this application. The City undertook parking counts and observations as part of the assessment of this application. The assessment of this application a range of considerations have been taken into consideration to determine the suitability of the proposed increase at the training facility.</p>
----	---	-----------------------	--	--

Attachment 12.1.1 Submission Table

			<p>4. We have photo's to prove that most bays previously were used for more than 2 hours. Our Social Isolation free Belmont activities are for 2 hours and with times to start it is up to 2.5 hours. Some with free lunch are 3 hours. These are for the city of Belmont social isolated or low income as a free service and should not be seen as little significant with the training centre having first parking options.</p> <p>I am not sure where you got the "less than 2 hours", but we have proof that that was incorrect.</p> <p>5. Public Transport Option Students still park and the link was open. Our clients often have limited mobility, children in the City of Belmont who have parents or grandparents get them to school. The Train is not an option for Rivervale, Kewdale, Cloverdale and other City of Belmont areas. A bike is certainly not an option and buses are also not an option with limited mobility and going to a school first.</p> <p>We have yet to see a training centre student utilise a bike</p> <p>Therefore none of the proposed modifications are considered to be consistent with the previous section they were granted under or the regulation 77 and so we request that it be totally denied.</p>	<p>4. The parking restrictions of the public bays at Epsom Avenue commercial centre do not form part of this application and are a separate matter being dealt with by council.</p> <p>It is noted that separate to this application, at the October 2022 OCM Council resolved to install parking sensors and enforce parking time restrictions in the public parking bays within Epsom Avenue. These sensors have now been installed. As part of the motion put forward by Councillors at the June 2023 OCM, officers will be undertaking a review of the current parking controls and impact of the newly installed system three months after their install.</p> <p>5. Refer to point 3 and 4 of this submission.</p>
5.	R. Wilkinson – 2/112 Belgravia St, Belmont	130 Epsom Ave, Belmont	<p>1. I strongly oppose any further increase to the amount of students or staff attending this site. With the current amount of people attending here they already take up all the public car parking in the vicinity.</p> <p>2. I have talked to other shop owners on Epsom Ave who say even the street parking there shops is taken by people attending this site.</p> <p>Since the apparent introduction of parking sensors. Attendees are now parking on verge space surrounding Epsom Ave and Edwards Crescent.</p> <p>3. Any increase in people attending this site will put other shop owners at a disadvantage, due to their customers not being able to find easily accessible parking, not to mention becoming a traffic hazard.</p>	<p>1. Refer to the Council Report for the assessment of the suitability for an increase of student and staff numbers.</p> <p>2. Issues with parking of vehicles on the verge is not a matter that can be addressed in this planning application. Issues to do with parking on verges are best directed to Rangers to investigate at the time of the incident.</p> <p>It is noted, that there will be a review of the public bays within the Epsom Avenue commercial centre area. The issues with the availabilities of public bays at the Epsom Avenue commercial centre are subject to a separate investigation.</p> <p>3. It is acknowledged that the Epsom Avenue bays are public bays and can be used by students. During observations of the current operation it is acknowledged that the use already relies heavily on the use of public bays to meet its parking demand.</p> <p>Refer to the Council Report for the assessment of the suitability for an increase of student and staff numbers.</p>

Attachment 12.1.1 Submission Table

6.	D. Bui – 148 Epsom Ave, Belmont	148 Epsom Ave, Belmont	<p>1. I would like to comment on the application for 154 Epsom Avenue Belmont (LOT 2 PL 5283) to increase its maximum capacity and the impact it will therefore have on the parking availability around the Epsom Ave Shopping Precinct. I understand that there are 12 parking bays on site reserved for their staff and students only, and this according to the council's LPS 15, does allow the requested increase to 48 students to be present on site at any given time.</p> <p>However, the reason for our comment on this application is that realistically, the increased allowable capacity means there will be less available parking bays around the precinct.</p> <p>2. It is my understanding that students and staff are often required to stay on site for the training for longer than 2 hours. There are only 14 bays that currently do not have any sensors installed or time restrictions in the Epsom Ave shopping precinct (and 6 bays on Edwards Crescent) so with an increased capacity of 48 students, this means these unrestricted bays are taken up most of the time.</p> <p>The implications for this is my staff are unable to then find parking in an unrestricted parking bay for the duration of their 8-10 hour shifts. With the nature of the work we do, it unfortunately disrupts our ability to provide optimal patient care if we then need to move our cars every 2 hours, particularly if we are in the middle of a consult. Being a Pharmacist myself, The Pharmacy Board of Australia legally requires me to be present in the store at all times so I physically can not leave to move my car on the days the unrestricted parking bays are taken up. There is no access to parking behind our building.</p> <p>3. While we are not looking to dispute the application per se, we are hoping to bring to the council's attention the current problems we are facing with the parking availability and the flow on effect this application will have in further compounding the parking issues we are already facing.</p>	<p>1. Noted, refer to the Officers recommendation where an assessment of the suitability of applying the LPS 15 car parking requirements.</p> <p>2. Refer to the Council Report for the assessment of the suitability for an increase of student and staff numbers.</p> <p>The parking restrictions of the public bays at Epsom Avenue commercial centre do not form part of this application and are a separate matter being delt with by council.</p> <p>3. Noted, refer to the Officers recommendation where an assessment of the suitability of applying the LPS 15 car parking requirements.</p>

Attachment 12.1.2 Parking Management Plan

2023

Parking Management Plan

154 Epsom Ave,
Belmont

CITY OF BELMONT
RECEIVED
02/05/2023
Application No: 181/2012/DAAM/B

Attachment 12.1.2 Parking Management Plan

1. Introduction

This Parking Management Plan (PMP) has been prepared by the owners of No.154 Epsom Avenue, Belmont in support of the operation of Trainwest at the property.

2. Purpose

The purpose of this PMP is to detail how the owners and the tenants will manage vehicle parking associated with the operation of Trainwest from the site. It is prepared in support of an application seeking approval to a maximum of 48 students at the site.

3. Scope

The PMP applies to all staff, students and visitors of Trainwest (current tenant) that enter the building. The requirements of this PMP shall be complied with at all times.

4. Parking Management Objectives

- To the extent possible ensure staff, students and visitors use the allocated car parking bays onsite and limit the usage of public car parking bays.
- No parking in the bays adjacent commercial premises.
- Provide a safe environment for all road users, pedestrians and cyclists.
- Minimise negative impacts to the local community.
- Provide details on how ongoing compliance will be achieved.

5. Responsibilities

The tenants will ensure that all staff, students and visitors are made aware of the PMP by providing sufficient information and instruction prior to attending the building.

6. Site Information

The site at No.154 Epsom Avenue is approved by the City of Belmont for use as an 'Educational Establishment'.

The property comprises of a two storey 580 square metre building on a site area of 911 square metres with building completed in April 2015.

7. Parking Availability

- a) No.154 Epsom Avenue incorporates parking for 12 vehicles plus one ambulant car bay;
- b) The Public Car park across the road from the building has unrestricted parking for 19 vehicles and soon to be introduced restricted (2 hour) parking for an additional 19 vehicles.
- c) Provision of over 500 parking bays within the Public Car Parking at Redcliffe Train Station (subject to a fee of \$2 per 24 hour period). Availability of Transperth bus services connecting the Train Station with Trainwest is detailed at Section 14 below.

8. Hours of Operation

- a) The Building currently operates Monday to Friday from 8:30am to 4pm. It is closed on weekends, public holidays and 2 weeks over the Christmas break.
- b) Training courses are held from 8:30am-4pm Monday to Friday

9. Number of people generally utilising the building

- a) Subject to approval being obtained from the City, a total of 48 students would attend the site for scheduled classes within the premises;
- b) Educational services are also provided to clients external to the building and via eLearning.

Attachment 12.1.2 Parking Management Plan

10. Management of Parking

Prior to attendance at the building all students, staff and visitors will receive a confirmation letter/email and Student Information Handbook (as applicable) to ensure the following:

- Staff and visitors are fully aware of parking arrangements and receive sufficient instruction to ensure parking compliance is maintained.
- Students are fully informed of parking arrangements and restrictions at the building and across the road in the public car parking area.
- The promotion of carpooling and non-car-based travel modes including information on Public Transport, availability of bike racks and showering facilities. In respect to public transport this will include parking availability at the nearby Redcliffe Station as well as bus timetables travelling from Redcliffe Station to 154 Epsom Ave.
- Provision of a parking manager (trained staff member) to ensure parking compliance.

11. Disabled Parking

- a) One disabled parking bay is allocated on the site. This is clearly marked in accordance with the Australian Standards Use. Use of this bay is prohibited without a disability permit or without prior approval from the tenant under exceptional circumstances.
- b) Students are asked to nominate prior to enrolment any disabilities that will require them to use this parking bay.

12. Street and Free Parking

- a) There is restricted (1 hour) parking bays directly in front of other commercial buildings adjacent to the Trainwest building. Students and visitors will be advised prior to attendance at the building that these bays are strictly not to be used. The student confirmation letter and Student Information Handbook which is provided prior to attendance currently contains this information.
- b) Other City of Belmont free parking options in near vicinity, for example the carpark opposite the Tavern on Wright Street to also be included as part of the information.

13. Bicycle Parking

- a) Six bicycle racks will be provided on the site.
- b) Students will be advised of their availability and associated end of trip facilities within the Student Information Handbook.

14. Public Transport Access

- a) The building is located approximately 10 metres to a Transperth bus stop on Epsom Ave which is serviced by Bus Route 39 and Bus Route 935.
- b) Bus route 39 leaves approximately every 30 minutes from Elizabeth Quay with stops on Epsom Ave on route to Redcliffe Train Station;
- c) Bus Route 935 leaves approximately every 15 minutes from Kings Park with stops on Epsom Avenue on route to Redcliffe Train Station. Reverse journeys are also scheduled with both Bus Routes;
- d) In both instances, the journey by Transperth bus between Trainwest and the Train Station is approximately 6 minutes;
- e) Links to access these timetables will be provided to students, visitors, and staff prior to attending the building.
- f) Redcliffe Train Station is just over 2kms from the building and forms a bus/train interchange with timetables to optimise travel times. There are over 500 parking bays available with a charge of \$2.00 per 24-hour period.
- g) Students and staff will be encouraged and informed prior to attendance to utilise this parking.

CITY OF BELMONT
RECEIVED
02/05/2023
Application No: 181/2012/DAAM/B

2 | Page

Attachment 12.1.2 Parking Management Plan

15. Parking Management personnel

The owners of the building will work with the Tenant to ensure all staff are aware of their responsibilities, appropriately trained and receive sufficient instruction to ensure the requirements of the PMP is undertaken and complied with.

16. Communicating with community

- a) The owners and tenants will provide the appropriate level of communication with the local commercial premises to ensure the PMP is implemented and share understanding of our commitment and support of their business by implementing a strong PMP to ensure no vehicles utilise the 2-hour parking bays within the Epsom Avenue public parking area.
- b) The local commercial businesses will be encouraged to communicate with the Tenants and Owners of any concerns they may have in relation to parking.

17. Monitoring, Measurement and Review

The owners and tenants will ensure the Parking Management Plan is implemented and evaluated for effectiveness. Consistent monitoring and review is required as part of a continuous improvement approach to ensure the PMPs continuing suitability, adequacy and effectiveness.

18. Feedback and Review

All comments and complaints regarding the management, implementation and operation of the PMP shall be recorded and will be used during the PMP review. All feedback will be reviewed and implemented as a variation to the PMP as required.

- A review of the PMP will be undertaken by the owners within 6 months of implementation taking into consideration feedback from students, staff, local commercial businesses, neighbours, residents and the City of Belmont.

CAR PARKING LICENCE AGREEMENT

BETWEEN:

DEPARTMENT OF FIRE AND EMERGENCY SERVICES of 20 Stockton Bend, Cockburn Central, Western Australia ("**Licensor**")

AND

DAVID THYS WILLIAM MUNROWD-HARRIS of 61 Paddington Street, North Perth, Western Australia and **ANN-MARIE WRAGG** of 1 Fourth Ave, Applecross, Western ("**Licensee**")

THE PARTIES AGREE AS FOLLOWS:

1. DEFINITIONS

In this Agreement unless the context requires otherwise:

"Agreement" means this car parking licence agreement and any schedules and/or annexures hereto;

"Car Parking Area" means the area on the corner of Durban Street and Leake Street, Belmont identified and marked in green in Annexure A;

"Licensee's Covenants" means all or any of the covenants and agreements contained in or implied by this Agreement and on the part of the Licensee to be observed and performed;

"Padlocks" means the Licensor's and the Licensee's padlocks which are linked together and used to secure the gate to the Car Parking Area; and

"Trainwest" means the tenant of the Licensee's premises located at 154 Epsom Avenue, Belmont who operates a training business from those premises.

2. GRANT OF LICENCE

In consideration of the Licensee's Covenants the Licensor grants to the Licensee and Trainwest, the non-exclusive right to use the Car Parking Area between 7:45am and 4:30pm Monday to Friday for no fee.

3. LICENSEE'S COVENANTS

The Licensee covenants with the Licensor:

- (a) to ensure the Car Parking Area is secured with the Padlocks at the end of each day where the Licensee and Trainwest have used the Car Parking Area, unless the Car Parking Area is also being used by the Licensee at the time of departure;

City of Belmont
AMENDED PLANS
RECEIVED 27/02/2024
Application No: 181/2012/DAAM/B

1

- (b) to ensure Trainwest’s staff and students are mindful of nearby neighbours when using the Car Parking Area and that they report any incidents within the Car Parking Area to the Licensor as soon as practicable;
- (b) that the Car Parking Area is used at the risk of the Licensee and Trainwest and except to the extent that any loss, damage or injury is caused by any act, omission or neglect of the Licensor or any of its employees agents and contractors, the Licensor shall not be liable for any loss damage or injury that may be sustained at any time in the Car Parking Area or in any of the access ways giving access to or egress from the Car Parking Area including but not limited to damage or theft to any motor vehicle or injury to any person.

4. TERMINATION

The Licensor shall be entitled to terminate or suspend this licence on 90 days’ written notice to the Licensee, except in the case of an emergency in which case the Licensor must give as much notice as is reasonably practicable to the Licensee.

EXECUTED BY THE PARTIES AS A DEED ON THE 10TH DAY OF FEBRUARY 2024

Parking Management Plan

154 Epsom Ave,
Belmont

1. Introduction

This Parking Management Plan (PMP) has been prepared by the owners of No.154 Epsom Avenue, Belmont in support of the operation of Trainwest at the property.

2. Purpose

The purpose of this PMP is to detail how the owners and the tenants will manage vehicle parking associated with the operation of Trainwest from the site. It is prepared in support of an application seeking approval to a maximum of 48 students at the site.

3. Scope

The PMP applies to all staff, students and visitors of Trainwest (current tenant) that enter the building. The requirements of this PMP shall be complied with at all times.

4. Parking Management Objectives

- To the extent possible ensure staff, students and visitors use the allocated car parking bays onsite and limit the usage of public car parking bays.
- No parking in the bays adjacent commercial premises.
- Provide a safe environment for all road users, pedestrians and cyclists.
- Minimise negative impacts to the local community.
- Provide details on how ongoing compliance will be achieved.

5. Responsibilities

The tenants will ensure that all staff, students and visitors are made aware of the PMP by providing sufficient information and instruction prior to attending the building.

6. Site Information

The site at No.154 Epsom Avenue is approved by the City of Belmont for use as an 'Educational Establishment'.

The property comprises of a two storey 580 square metre building on a site area of 911 square metres with building completed in April 2015.

7. Parking Availability

- a) No.154 Epsom Avenue incorporates parking for 12 vehicles plus one ambulant car bay.
- b) The Public Car park across the road from the building has unrestricted parking for 19 vehicles and restricted (4 hour) parking for an additional 19 vehicles.
- c) Ample parking available at the DFES Simulation Centre carpark located on the Corner of Leake Street and Durban Street. Trainwest staff will unlock the gates to the carpark at 7:45am, with the gates then being locked at 4:30pm.
- d) In the unlikely event that the DFES carpark is unavailable, students will be emailed prior to attending and advised of limited parking availability. They will be encouraged to look at other options such as public transport and carpooling.
- e) Provision of over 500 parking bays within the Public Car Parking at Redcliffe Train Station (subject to a fee of \$2 per 24-hour period). Availability of Transperth bus services connecting the Train Station with Trainwest is detailed at Section 14 below.
- f) A map showing the Trainwest premises, public parking and the location of the DFES Simulation Centre Carpark is included at Appendix A.

8. Hours of Operation

- a) The Building currently operates Monday to Friday from 8.30am to 4pm. It is closed on weekends, public holidays and 2 weeks over the Christmas break.
- b) Training courses are held from 8:30am-4pm Monday to Friday.

9. Number of people generally utilising the building

- a) A maximum of 48 students would attend the site for scheduled classes within the premises;
- b) Educational services are also provided to clients external to the building and via eLearning.

10. Management of Parking

Prior to attendance at the building all students, staff and visitors receive a confirmation letter/email and Student Information to ensure the following:

- Staff and visitors are fully aware of parking arrangements and receive sufficient instruction to ensure parking compliance is maintained.
- Students are fully informed of parking arrangements and restrictions at the building and across the road in the public car parking area.
- The promotion of carpooling and non-car-based travel modes including information on Public Transport, availability of bike racks and showering facilities. In respect to public transport this will include parking availability at the nearby Redcliffe Station as well as bus timetables travelling from Redcliffe Station to 154 Epsom Ave.
- Provision of a parking manager (trained staff member) to ensure parking compliance.

11. Disabled Parking

- a) One disabled parking bay is allocated on the site. This is clearly marked in accordance with the Australian Standards Use. Use of this bay is prohibited without a disability permit or without prior approval from the tenant under exceptional circumstances.
- b) Students are asked to nominate prior to enrolment any disabilities that will require them to use this parking bay.

12. Street and Free Parking

- a) There are restricted (1 hour) parking bays directly in front of other commercial buildings adjacent to the Trainwest building. Students and visitors are advised prior to attendance at the building that these bays are strictly not to be used. The student confirmation letter and Student Information Sheet which is provided prior to attendance currently contains this information.
- b) Other City of Belmont free parking options in near vicinity, for example the carpark opposite the Tavern on Wright Street to also be included as part of the information.

13. Bicycle Parking

- a) Six bicycle racks will be provided on the site.
- b) Students will be advised of their availability and associated end of trip facilities within the Student Information Sheet

14. Public Transport Access

- a) The building is located approximately 10 metres to a Transperth bus stop on Epsom Ave which is serviced by Bus Route 39 and Bus Route 935.
- b) Bus route 39 leaves approximately every 30 minutes from Elizabeth Quay with stops on Epsom Ave on route to Redcliffe Train Station.
- c) Bus Route 935 leaves approximately every 15 minutes from Kings Park with stops on Epsom Avenue on route to Redcliffe Train Station. Reverse journeys are also scheduled with both Bus Routes.
- d) In both instances, the journey by Transperth bus between Trainwest and the Train Station is approximately 6 minutes.
- e) Links to access these timetables will be provided to students, visitors, and staff prior to attending the building.
- f) Redcliffe Train Station is just over 2kms from the building and forms a bus/train interchange with timetables to optimise travel times. There are over 500 parking bays available with a charge of \$2.00 per 24-hour period.
- g) Students and staff will be encouraged and informed prior to attendance to utilise this parking.

15. Parking Management personnel

The owners of the building will work with the Tenant to ensure all staff are aware of their responsibilities, appropriately trained and receive sufficient instruction to ensure the requirements of the PMP is undertaken and complied with.

16. Communicating with community

- a) The owners and tenants will provide the appropriate level of communication with the local commercial premises to ensure the PMP is implemented and share understanding of our commitment and support of their business by implementing a strong PMP to ensure no vehicles utilise the 2-hour parking bays within the Epsom Avenue public parking area.
- b) The local commercial businesses will be encouraged to communicate with the Tenants and Owners of any concerns they may have in relation to parking.

17. Monitoring, Measurement and Review

The owners and tenants will ensure the Parking Management Plan is implemented and evaluated for effectiveness. Consistent monitoring and review is required as part of a continuous improvement approach to ensure the PMPs continuing suitability, adequacy and effectiveness.

18. Feedback and Review

All comments and complaints regarding the management, implementation and operation of the PMP shall be recorded and will be used during the PMP review. All feedback will be reviewed and implemented as a variation to the PMP as required.

- A review of the PMP will be undertaken by the owners within 6 months of implementation taking into consideration feedback from students, staff, local commercial businesses, neighbours, residents and the City of Belmont.

The owners will provide a copy of the PMP to all tenants and business owners in the precinct once the application is approved.

APPENDIX A

12.2 Petition - Vehicle and Pedestrian Road Safety on Lyall Street, Redcliffe

Voting Requirement	:	Simple Majority
Subject Index	:	11/010 - Petition
Location/Property Index	:	Lyall Street, Redcliffe
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	Ordinary Council Meeting 21 November 2023 - Item 12.3
Applicant	:	Mr M Cardozo
Owner	:	N/A
Responsible Division	:	Infrastructure Services

Council role

Executive The substantial direction setting and oversight role of the Council eg, adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To consider a petition request for Council to improve vehicle and pedestrian road safety on Lyall Street, Redcliffe.

This updated report is provided further to the Information Forum held on 6 February 2024 and also provides details on updated traffic data along Lyall Street.

Summary and key issues

On 29 August 2023, a petition conforming to the City's petition requirements bearing 29 elector signatures was received.

The petition was presented at the 21 November 2023 Ordinary Council Meeting where Council determined that the matter be referred to an Information Forum pursuant to sections 11.1(g) and 18.1 of the City of Belmont Standing Orders Local Law 2017.

A briefing has now been provided to elected members at an Information Forum, and Council may now further consider the petition.

The petition reads as follows:

We the undersigned electors of the City of Belmont request that Council:

1. To improve vehicle and pedestrian road safety, reduce rat running and maintain an even distribution of traffic on all roads, we request the City install 3 or 4 additional local area traffic management devices in the form of road humps (to the same standard as Moreing Street) on Lyall Street, Redcliffe within the 2023 calendar year.
2. To improve vehicle and pedestrian road safety, reduce rat running and alert drivers they are entering a driving environment that is different from Great Eastern highway, we request the City install a local area traffic management device in the form of a raised threshold entry statement in combination with 50 km/h signage on Lyall Street near the junction of Great Eastern Highway within the 2023 calendar year.

Petition - Request 1: the installation of additional Local Area Traffic Management devices in the form of road humps is not supported at this time, based on the traffic data collected in February 2024.

Petition - Request 2: the installation of a Local Area Traffic Management Device in the form of a Raised Threshold Entry Statement in combination with 50 km/h signage on Lyall Street near the junction of Great Eastern Highway is not supported at this time. This is based on crash analysis and not satisfying the warrant criteria for Black Spot funding, the potential hazards associated with this type of treatment at this location, and MRWA not supporting the installation of a 50 km/h sign where this is already the default speed on an urban road.

The City will continue to monitor traffic volumes and speeds following the completion of the Tonkin Gap Alliance and Stanton Road projects.

Point number 4 of the officer recommendation in the 21 November 2023 Ordinary Council Meeting agenda proposed that the Chief Executive Officer advise the lead petitioner that the City will continue monitoring traffic conditions on Lyall Street, following the completion of the Tonkin Gap Alliance. As the Tokin Gap Alliance project has now been completed, an amended officer recommendation with modifications to Point number 4 is presented for Council to consider with recommendations 1, 2 and 3 remaining unchanged.

Amended Officer Recommendation

That Council:

1. Receive the petition on behalf of the petitioners regarding traffic issues in Lyall Street, Redcliffe.
2. Direct the Chief Executive Officer to advise the Lead Petitioner that the installation of additional Local Area Traffic Management devices in the form of Road Humps is not supported at this time.
3. Direct the Chief Executive Officer to advise the Lead Petitioner that the installation of a Local Area Traffic Management Device in the form of a Raised Threshold Entry Statement in combination with 50 km/hr signage on Lyall Street near the junction of Great Eastern Highway is not supported at this time.
4. Direct the Chief Executive Officer to advise the Lead Petitioner that the City will develop a Traffic model for the broader Redcliffe Area (inclusive of Lyall Street), to test various network change scenarios, towards identifying a prioritised, optimal program of works, to improve road user safety and local living amenity.

Location

The petition refers specifically to Lyall Street, Redcliffe as highlighted in red below.

Figure 1: Location Plan of Lyall St

Consultation

There have been numerous and ongoing communications between the City, the lead petitioner and many other signatories to the petition in recent months on traffic related matters in Lyall Street, Redcliffe.

Strategic Community Plan implications

In accordance with the 2020–2040 Strategic Community Plan:

Goal 2: Connected Belmont

Strategy: 2.2 Make our City more enjoyable, connected and safe for walking and cycling.

Goal 5: Responsible Belmont

Strategy: 5.5 Engage and consult the community in decision-making.

Policy implications

There are no policy implications associated with this report.

Statutory environment

The *City of Belmont Standing Orders Local Law 2017* stipulates:

6.8 Petitions

1. A petition is to –
 - a. be addressed to the Mayor;
 - b. be made by electors of the district;
 - c. state the request on each page of the petition;
 - d. contain the name, address and signature of each elector making the request, and the date each elector signed;
 - e. contain a summary of the reasons for the request; and
 - f. state the name of the person to whom, and an address at which, notice to the petitioners can be given.
2. Upon receiving a petition, the local government is to submit the petition to the relevant employee to be included in his or her deliberations and report on the matter that is the subject of the petition, subject to subsection (3).

3. At any meeting, the Council is not to vote on any matter that is the subject of a petition presented to that meeting, unless –
 - a. the matter is the subject of a report included in the agenda; and
 - b. the Council has considered the issues raised in the petition.

Background

On 12 October 2021, a petition was received on behalf of 8 valid electors regarding traffic volumes and speeds on Lyall Street.

A report was prepared and presented to Council at the February 2022 OCM at which the petition was received. A summary of the resolutions and an update on the resulting actions can be seen in Attachment 12.2.1.

Lyall Street is connected to Stanton Road, forming a T-intersection configuration. In February 2023, a Notice of Motion was raised to investigate measures that improve road user safety in response to community concerns around high traffic volumes, speeds, and safety for both Stanton Road and Second Street between Central Avenue and Epsom Avenue.

A report was considered at the 28 February 2023 OCM which included traffic (speed and volume), crash and routing analysis, along with reference to traffic conditions on Lyall Street.

The following resolutions were made:

1. Present investigation findings to Council on low-cost traffic calming options along Stanton Road and Second Street (that may qualify for funding under the Blackspot Program criteria) in May 2023 so Council may implement change.
2. Re-do the traffic count during next available time during the school term.
3. Review traffic counts and speeds once Tonkin Gap Alliance Project is complete and investigate permanent traffic solutions.
4. Investigate the temporary closure of the road at Central Avenue after the entrance to the train station and before Dunreath Drive, once Tonkin Gap Project is finalised.
5. Implement temporary calming devices to be installed in 2023 between Lyall Street and Epsom Avenue

This project will receive State funding via the MRWA Low-Cost Urban Roads Program (LCURS) and design is in progress with installation anticipated to occur in the first half of 2024 subject to statutory approvals, service relocations and street lighting installations.

Following completion of the Stanton Road and Tonkin Gap Alliance (TGA) projects, further data will be collected to assess their impact on Lyall Street.

A procedural motion was passed at the 21 November 2023 Ordinary Council Meeting for this report to be referred back to a future Information Forum.

The report was discussed at the Information Forum held on 6 February 2024 and this updated report provides further information on updated traffic data along Lyall Street.

Report

On 29 August 2023, a petition conforming to the City's petition requirements bearing 29 signatures was received. Whilst additional signatures were received, they did not conform on the basis that they were not electors of the district and were deemed invalid. It is relevant to note that this did not influence the process followed in considering the petition.

The petition reads as follows:

"We the undersigned electors of the City of Belmont request that Council:

1. To improve vehicle and pedestrian road safety, reduce rat running and maintain an even distribution of traffic on all roads, we request the City install 3 or 4 additional local area traffic management devices in the form of road humps (to the same standard as Moreing Street) on Lyall Street, Redcliffe within the 2023 calendar year.
2. To improve vehicle and pedestrian road safety, reduce rat running and alert drivers they are entering a driving environment that is different from Great Eastern highway, we request the City install a local area traffic management device in the form of a raised threshold entry statement in combination with 50 km/h signage on Lyall Street near the junction of Great Eastern Highway within the 2023 calendar year."

The City continues to monitor traffic conditions on Lyall Street with the most recent survey being completed in June 2023 (refer Attachment 12.2.2), details of which were included in the 25 July 2023 Ordinary Council Meeting Minutes for an answer to a question taken on notice and attached at Item 5.1.2.1.

The data showed a marginal change in both traffic volumes and speeds.

Petition - Request 1: Installation of Speed Humps.

The installation of speed humps on Lyall Street is not currently supported by the City, with reference to the traffic data from June 2023 confirming a

maximum traffic volume at 2839 vehicles per day and the average 85th percentile speed at 49.8 km/h which is below the urban speed limit of 50 km/hr.

The City scheduled further traffic surveys in November 2023 and February 2024.

Petition - Request 2: Threshold Entry Statement and 50 km/h Signs

The five-year MRWA crash records for the period 1 January 2018 until 31 December 2022 show three (3) crashes at the intersection of Great Eastern Highway (GEH) and Lyall Street. These have involved conflicts between through traffic on GEH and local traffic entering Lyall Street, resulting in two property damage only (PDO) and one medical. This pattern of incidents does not meet the warrant for either Federal or State Blackspot funding consideration.

The requested installation of a raised threshold entry statement in isolation of other measures is therefore not supported. There is a large differential of traffic volumes between through traffic on GEH (Primary Distributor Road) and those entering or exiting Lyall Street (Local Access Road). Under these conditions the introduction of a raised plateau treatment, whilst reducing entry speeds, is likely to result in an increased incident of nose to tail or rear end incidents. Any upgrade of this intersection would require the prior review and approval of MRWA.

MRWA will not support the installation of 50km/h speed signs as the default limit for urban roads is already 50km/h.

Petition to be considered by Council

Following the procedural motion passed at the Ordinary Council Meeting on 23 November 2023, officers delivered a presentation to Elected Members on 6 February 2024. The substantive matter may now be considered by Council, having regard for certain updates as outlined below.

Lyall Street Traffic Data Update

The City continues to monitor traffic conditions on Lyall Street with the most recent survey being completed in April 2024.

Table (1) below provides comparisons between traffic volumes (average weekly traffic, i.e. average vehicles per day) and speeds since 2018:

Lyall Street: Great Eastern Highway to Miller Avenue				
Year	AWT (vehicles/day)	85%ile speed km/h	Commercial %	Date
2024	3068	44.0	6.10	16/04/2024
2024	2575	43.7	7.85	13/02/2024
2023	3081	43.6	7.44	22/11/2023
2023	2839	50.0	6.30	15/06/2023
2022	2793	42.3	8.07	10/12/2022

2022	2322	40.1	5.31	24/5/2022
2021	1913	40.9	4.89	26/11/2021
2020	1085	41	5.13	28/10/2020
2019	1178	40.7	5.33	25/10/2019
2018	1232	40.68	3.50	5/11/2018

Table 1 – Lyall Street

Note

1. Count data from the Lyall Street location on 22/11/2023 outside 35 and 42A unreliable on account of loop damage.
2. Count data for 15/04/2024 (over three days only) – Tuesday 16th to Thursday 18th April 2024.

A significant reduction in the average daily traffic volumes was recorded in the mid-February 2024 survey, of between 16% and 20% across all count locations. This can be attributed to the substantial completion of the Tonkin Gap Alliance (TGA) project works with removal of temporary traffic control measures and reopening of the Tonkin Highway section from 80 km/hr to 100 km/hr. The desired and sign-posted route for access to and from Perth Airport and Business Precinct (Great Eastern Highway and Tonkin Highway) has become more favoured over the alternative route of the Stanton Rd and Second St route, and ultimately, traffic volumes on Lyall Street have reduced. It should be noted that there are still ongoing works at the Great Eastern Highway and Tonkin Highway interchange since the mid – February traffic survey with partial lane closures for median island, kerbing, asphalt and line marking works.

While the most recent, mid-April 2024 traffic survey, shows increased traffic volumes, towards the peak volumes recorded in November 2023, the survey period was only three days over the working week, and is therefore not considered representative or comparable of the previous seven-day counts.

The average traffic speeds recorded across all the Lyall Street sites have been consistent over the years.

In summary, based on traffic count data, the implementation of additional traffic engineering devices is not warranted at this time.

The City will continue to monitor traffic conditions and complete surveys at least once per annum over a seven-day period, at the same locations and timing for benchmarking and comparison purposes.

Redcliffe Area Modelling

The City has recently appointed an independent specialist traffic engineering consultant to undertake modelling of the Redcliffe Area local road network which includes Lyall Street.

The traffic model outcome will identify optimal, prioritised short, medium and long-term measures that will improve road user safety and living amenity for Redcliffe residents.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Attachment details

Attachment No and title
1. Petition Lyall Street - OCM 22 February 2022 Recommendations and Updates [12.2.1 - 3 pages]
2. Petition Lyall Street - June 2023 Traffic Data [12.2.2 - 2 pages]

Petition – Vehicle and Pedestrian Road Safety on Lyall Street, Redcliffe

The following resolutions were passed by Council at the 22 February 2022 Ordinary Council Meeting, with updates provided below:

- 1. Receive the petition on behalf of the petitioners regarding concerns with traffic volumes and speeds on Lyall Street, Redcliffe, along with various suggestions to improve the situation.**

Petition received.

- 2. Direct the Chief Executive Officer advise the lead petitioner that based on the results of the November 2021 traffic survey and analysis of crash data, no traffic engineering works on Lyall Street are warranted at this time.**

Letter sent to the lead petitioner on 23 February 2022.

- 3. Direct the Chief Executive Officer to advise the lead petitioner that ongoing monitoring of traffic behaviour and reassessment following receipt of the 2022 traffic survey data will be undertaken to determine whether the implementation of any additional measures is justified.**

Letter sent to the lead petitioner on 23 February 2022.

- 4. Direct the Chief Executive Officer to liaise with WA Police Services to provide resident feedback regarding speeding cars in Lyall Street.**

A speed camera was mobilised by the WA Police Traffic Enforcement Group from 1-7 August 2022 and WA Police also promoted their increased presence in the area via social media. The City requested information from WA Police in relation to any outcomes associated with these initiatives, however this information has not been provided to date. Initial contact was made with the Local Officer in Charge at the Belmont Police Station on 4 March 2022.

- 5. Direct the Chief Executive Officer to liaise with Main Roads WA regarding the installation of a Local Traffic Only sign at the Great Eastern Highway entrance to Lyall Street.**

Initial contact made with Main Roads WA Traffic Services Officer - South East on 15 March 2022.

The Traffic Services Officer – South East has now advised that in relation to the request for the installation of Local Traffic Only signs, Main Roads WA has reservations about the efficacy of such signs. They are not enforceable and there is no evidence that they change driver behaviour. Lyall Street is a public road with no traffic restrictions.

Additionally, Main Roads WA considers that an over proliferation of signs creates not only visual pollution but can also lead to a general ambivalence to road signage and its inherent message which reduces the efficacy of more important signs such as regulatory signs that are essential for maintaining road safety.

Therefore, Main Roads do not support the installation of a Local Traffic Only sign at this location.

6. Direct the Chief Executive Officer to carry out two additional traffic counts, in three and nine-months' time

The additional traffic volume and speed surveys were completed in May 2022 and December 2022, three and ten months respectively, following the 22 February OCM report. Comparisons between the traffic volumes and average weekly traffic (AWT) since 2018 are provided below:

Lyall Street: Great Eastern Highway to Miller Avenue				
Year	AWT (vehicles/day)	85%ile speed km/h	Commercial%	Date
2022	2793	42.3	8.07	10/12/2022

2018	1219	54.54	4.00	5/11/2018

Lyall Street: Drummond Street to Stanton Road				
Year	AWT (vehicles/day)	85%ile speed km/h	Commercial%	Date
2022	2473	40.5	5.61	10/12/2022
2022	2322	40.1	5.31	24/5/2022
2021	1913	40.9	4.89	26/11/2021
2020	1085	41	5.13	28/10/2020
2019	1178	40.7	5.33	25/10/2019
2018	1232	40.68	3.50	5/11/2018

In summary, the data from the December 2022 traffic counts indicates that speeds are consistent with those previously recorded in November 2021, while the traffic volumes have increased between 27% and 29%. It is relevant to note that the current volumes are still within the maximum desirable criteria of 3,000 vehicles per day for an Access Road (as per the Main Roads WA Road hierarchy classification). The increased traffic volumes can be attributed to relaxed COVID-19 restrictions, increased mobility, Redcliffe Rail and Perth Airport operations.

Based on the most recent traffic counts, the data still indicates that the implementation of additional speed limiting traffic engineering devices are not warranted at this time.

The City will continue to monitor traffic conditions and complete surveys at least once per annum at the same locations and timing for benchmarking purposes.

7. Direct the Chief Executive Officer to place the speed trailer in Lyall Street after the traffic count is undertaken in three months' time.

The City's speed trailer was mobilised in August 2022, with the results presented below:

East to West Direction of travel 19 - 24 August 2022

Number of Vehicles	Speed Recorded km/h	Percentile
3051	0-50	90.9
241	51-55	7.2
50	56-59	1.5
15	60-79	0.4

West to East Direction of travel 24 – 29 August 2022

Number of Vehicles	Speed Recorded km/h	Percentile
2835	0-50	91.7
199	51-55	6.4
42	56-59	1.3
17	60-79	0.6

The results indicate a high order of speed compliance with only 2% of traffic exceeding 55 km/hr.

Petition – Vehicle and Pedestrian Road Safety on Lyall Street, Redcliffe

June 2023 Traffic Data

The City continues to monitor traffic conditions on Lyall Street with the most recent survey being completed in June 2023, details of which were included in the 25 July 2023 Ordinary Council Meeting Minutes at Item 5.1.2.

Lyall Street: Great Eastern Highway to Miller Avenue				
Year	AWT (vehicles/day)	85%ile speed km/h	Commercial%	Date
2023	2839	50.0	6.30	15/06/2023

Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

For Council to consider the outcomes and confirm the Minutes of the Special Electors' Meeting held on Monday 29 April 2024 (refer Attachment 12.3.1).

Summary and key issues

In accordance with section 5.33 of the *Local Government Act 1995 (WA)*, decisions made at an electors' meeting, such as that held on Monday 29 April 2024, are to be considered at the next Ordinary Council Meeting. Where Council makes a decision in response to a decision made at an electors' meeting, the reasons for the decision are to be recorded in the minutes of the Council Meeting.

Officer Recommendation

That Council:

1. Affirms that consideration has been given to all motions carried at the Special Electors' Meeting held on Monday 29 April 2024 and provide the below responses pertaining to each motion:
 - a) Motion 1
 - i) Council endorses the installation of traffic calming in accordance with the Main Roads WA approved design associated with the Low Cost Urban Road Safety (LCURS) program on Stanton Road – Central Ave to Epsom Ave, as consistent with the budget of \$354,407 adopted in the 2023-24 October Budget Review (WR2420) at the 31 October 2023 Ordinary Council Meeting.
 - ii) Council determines that a temporary modal filter at 142 Central Avenue be considered as part of the Redcliffe Area local traffic study.
 - b) Motion 2
 - i) Council determines that Part a) of the electors' decision has already been addressed and no further action of Council is required.
 - ii) Council affirms that community engagement in relation to Parts b), c), and d) of Motion 2 will be conducted to inform the Redcliffe local area traffic study.
 - c) Motion 3
 - i) Council confirms that the City has already engaged an independent specialist traffic engineering consultant to undertake modelling of the Redcliffe Area local road network.
 - d) Motion 4
 - i) Council affirms that the City's approach to traffic management is to adopt strategic transportation planning using traffic modelling as a primary planning method, and use of the City's warrant system as a local traffic management support tool.
2. Direct the Chief Executive Officer to advise the Lead Submitters of the Form 1 of Council's decision under resolution 1 above.

Location

The Special Electors' Meeting decisions relate to traffic studies and management in the locality of Redcliffe.

Consultation

This item is presented for Council to consider the decisions made at the 29 April 2024 Special Electors' Meeting and no consultation is required on the matter.

Strategic Community Plan implications

In accordance with the 2020–2040 Strategic Community Plan:

Goal 2: Connected Belmont

Strategy: 2.1 Design our City so that it is accessible by people of all ages and abilities

Strategy: 2.2 Make our City more enjoyable, connected and safe for walking and cycling

Strategy: 2.3 Facilitate a safe, efficient and reliable transport network

Strategy: 2.4 Promote alternative forms of transport

Goal 5: Responsible Belmont

Strategy: 5.5 Engage and consult the community in decision-making.

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Local Government Act 1995 (WA)

The Act sets out provisions for Special Electors' Meetings. Section 5.32 of the *Local Government Act 1995 (WA)* requires that the minutes of the electors' meeting be kept and made available for public inspection before the Council Meeting at which decisions made at the electors' meeting are first considered.

Section 5.33 of the *Local Government Act 1995 (WA)* requires all decisions made at electors' meetings be considered at the next available ordinary council meeting, or, if not possible at a special council meeting called for that purpose,

whichever happens first. The reasons for a decision made at a council meeting in response to a decision made at an electors' meeting are to be recorded in the minutes of the council meeting.

Section 3.50 of the Act sets out provisions for closing a thoroughfare for more than 4 weeks. The requirements include:

- a) Giving local public notice of the proposed closure and inviting submissions
- b) Giving written notice to adjacent properties/landowners
- c) Providing the Commissioner of Main Roads a copy of the notice
- d) Allowing a reasonable time for submissions to be made and consider any submissions made

Section 3.50(6) provides that the Minister may revoke the decision to close a thoroughfare.

City of Belmont Standing Orders Local Law 2017

Part 15 of the Standing Orders Local Law 2017 outlines provisions for making, revoking or changing decisions. In particular, part 15.1(1)(a) specifies limitations on powers to revoke or change decisions where action has been taken to implement a decision.

Part 15.1(2) provides that council may contemplate a motion to revoke or change a decision after it has considered a report by the CEO on the legal and financial consequences of the proposed revocation or change.

Background

A Special Electors' Meeting was held on Monday 29 April 2024 at the City of Belmont Civic Centre, 215 Wright Street, Cloverdale. There were 44 electors and one member of the public in attendance.

The following four motions were passed at the Special Electors' Meeting:

Motion 1:

That the City pause the implementation of permanent traffic calming on Stanton and replace it with a temporary modal filter (e.g. in the form of inexpensive water filled bollards) on Central – at 142 Central, adjacent to the border of Airport land to temporarily restrict airport outbound traffic on Dunreath drive for a 12-month period.

Carried 41 votes to 0

Motion 2:

That prior to the installation of the permanent traffic calming on Stanton, the City convene a community consultation meeting for the purpose of identifying and addressing local Redcliffe resident, school & general community issues and concerns, particularly:

- a) the need to identify safety treatments for school drop off and pick ups and permanent safe pedestrian road crossings.
- b) the need to deter (non-local & rat run) traffic Airport in & out bound from using Epsom Avenue, Durban Street & Hardey Road
- c) the need to stop through (non-local & rat run) traffic problems on Stanton Road, DA6 (particularly Boulder & Bulong) and the West Redcliffe Block*(particularly Morrison, Lyall, Moreing & Victoria)* the West Redcliffe Block being the area bound by Stanton, Tonkin, Great Eastern and Epsom.
- d) the need to temporarily close Bulong at Boorn until an application for multi-storey development approval is progressed on Bulong.

Carried 41 votes to 0

Motion 3:

That prior to the installation of the permanent traffic calming on Stanton, the City engages an independent traffic engineering consultant firm to provide traffic management calming options and recommendations that address the issues and concerns raised, that a supplementary community meeting be convened for presentation of the recommendations and public comment on the recommendations.

Carried 42 votes to 0

Motion 4:

That Council instruct the City to create a formal traffic management policy that for governance and transparency is publicly available on the city's website, that the policy reflects the current 2020 Aust Roads City of Stirling guideline version of the warrant system point scoring that establishes an orderly method to assess priority and need for traffic calming.

Carried 41 votes to 0

Under Section 5.33 of the *Local Government Act 1995 (WA)*, council is required to:

1. Consider and determine a response to each of the above decisions of the electors; and
2. Provide reasons for each of council's responses.

Each decision from the Special Electors' Meeting has been assessed and corresponding recommendations are provided below for council to consider.

Report

Motion 1

Motion 1 reads as follows:

"That the City pause the implementation of permanent traffic calming on Stanton and replace it with a temporary modal filter (e.g. in the form of inexpensive water filled bollards) on Central – at 142 Central, adjacent to the border of Airport land to temporarily restrict airport outbound traffic on Dunreath drive for a 12-month period."

There are two aspects of this motion for Council to consider:

1. Pausing the implementation of permanent traffic calming on Stanton Road; and
2. Installing a modal filter at 142 Central Avenue to restrict the flow of traffic through the precinct for a 12-month period.

Each of these are discussed in further detail below.

Pausing the implementation of permanent traffic calming on Stanton Road

In relation to the first aspect, pausing the implementation of permanent traffic calming on Stanton Road would require revocation or a change to a previous decision of Council.

Part 15 of the City's Standing Orders Local Law 2017 outline provisions for making, revoking or changing decisions:

'15.1 Limitations on powers to revoke or change decisions

(1) Subject to subsection (2), the Council or a committee is not to consider a motion to revoke or change a decision –

(a) where, at the time the motion is moved or notice is given, any action has been taken under section 15.2 to implement the decision;'

(2) The Council or a committee may consider a motion to revoke or change a decision of the kind described in subclause (1)(a) if it has considered a statement of impact prepared by or at the direction of the CEO of legal and financial consequences of the proposed revocation or change.

It is important to consider the reasons for Council's resolutions at the 28 February 2023 Ordinary Council Meeting. The resolutions and reasons are as follows:

Alternative Councilor Motion:

1. Present investigation findings to Council on low-cost traffic calming options in May 2023 (as per point 3 on Officer recommendations, page 188 on OCM agenda 28 February 2023) so Council may implement change.
2. Re-do the traffic count during next available time during the school term.
3. Review traffic counts and speeds once Tonkin Gap Project is complete and investigate permanent traffic solutions.
4. Investigate the temporary closure of the road at Central Ave after the entrance to the train station and before Dunreath Drive, once Tonkin Gap Project is finalised.
5. Implement temporary calming devices to be installed in 2023 between Lyall St and Epsom Ave

Carried Unanimously 8 votes to 0

Reasons:

1. The impact of the popular DFO and Costco along with the imminent opening of the train station has resulted in increased traffic on Stanton Road & connecting Second Street which needs to be addressed.
2. Two schools and two nursing homes are on these roads and safety should be a priority.
3. The traffic count is very high but was conducted from 10-17 December 2022 when both local schools were on holiday.
4. Until the Tonkin Gap project is complete in 2024, we cannot tell the accurate impact of traffic on Stanton Rd/Second Street.

The two matters that Council's resolutions address are:

A. Traffic safety

This is evident in Resolution number 1 – to investigate low-cost traffic calming options; and Reason number 2 – prioritising safety having regard for the two schools and two nursing homes in the area.

Council subsequently considered the Low Cost Urban Road Safety (LCURS) proposal and the LCURS project budget of \$354,407 was adopted in the 2023-24 October Budget Review (WR2420) at the 31 October 2023 Ordinary Council Meeting.

B. Amenity for residents

This is evident in Resolution numbers 2, 3, 4 and 5 – to review traffic counts and investigate temporary road closures and temporary calming devices. Reason numbers 1, 3, and 4 indicate increasing traffic is a concern and acknowledges evolving circumstances in the potential patronage increases associated with DFO, Costco and train station. Importantly, Council acknowledged that until the Tonkin Gap project is completed, it is not possible to ascertain long term traffic impacts on amenity for residents.

In light of traffic safety concerns as outlined above, the City has substantially commenced implementation of Council's 28 February 2023 resolutions and has incurred costs of \$88,341 to date on civil design work with a further \$68,756 committed to Western Power for lighting upgrades.

The City has received 40% (\$141,762) of the LCURS funding from Main Roads WA, and has submitted a second 40% claim (\$141,762) with funds to be received in May. Western Power have scheduled to carry out their works in the second week of July 2024 with the City's works scheduled to follow immediately after.

In accordance with Part 15.1(2) of the Standing Orders Local Law 2017 this aspect of the electors' decision may only be contemplated if Council directs the CEO to prepare a report outlining the legal and financial consequences of the proposed revocation or change. At this point, the Standing Orders do not allow for Council to act on this aspect of the electors' decision. More crucially, the LCURS permanent treatment deals with traffic safety concerns that have been verified with traffic data for Stanton Road; as reflected in the reasons for Council's resolutions at the 28 February 2023 Ordinary Council Meeting.

Installing a modal filter at 142 Central Avenue adjacent to the border of Perth Airport land temporarily restrict airport outbound traffic for a 12-month period

In relation to the second aspect of the electors' decision, installing a modal filter at 142 Central Avenue for a 12-month period requires adherence to requirements under Section 3.50 of the *Local Government Act 1995 (WA)* which specifies provisions for closing thoroughfares to vehicles for more than four weeks. The process to provide public notice under Section 3.50(4) of the *Local Government Act 1995 (WA)* for a road closure at 142 Central Ave, and the subsequent consideration of public and stakeholder submissions, would take

several months. If, further to this process, Council resolved to close the road at 142 Central Ave, it is relevant to note that under Section 3.50(6) of the *Local Government Act 1995 (WA)* the Minister could revoke such a decision.

It is noted that this decision of the electors has some alignment to Council's resolution at the 28 February 2023 Ordinary Council Meeting Council to deal with amenity for residents in the area, specifically:

'Investigate the temporary closure of the road at Central Ave after the entrance to the train station and before Dunreath Drive, once Tonkin Gap Project is finalised'.

It is prudent to complete a traffic study to investigate if the rationale for road closure at 142 Central Avenue is sound. The City has recently appointed an independent specialist traffic engineering consultant to undertake modelling of the Redcliffe area local road network which includes Central Avenue to Dunreath Drive. Key stakeholders including Perth Airport, Public Transport Authority, Department of Planning, Lands and Heritage and local businesses will be engaged as part of the consultation as their future developments will be inputs to the model. The temporary closure of Central Ave at 142 Central Avenue is one scenario that will be modelled as part of the study and it is appropriate that this is discussed with the key stakeholders during the traffic study consultation period. The City has therefore commenced implementation of Council's resolution, the traffic study being the initial step in investigating the temporary closure of the road at 142 Central Avenue.

It is anticipated that the Redcliffe Area local traffic study will be completed in October 2024.

Having regard for the above, it is recommended that:

- Council endorses the installation of traffic calming in accordance with the Main Roads WA approved design associated with the Low Cost Urban Road Safety (LCURS) program on Stanton Road – Central Ave to Epsom Ave, as consistent with the budget of \$354,407 adopted in the 2023-24 October Budget Review (WR2420) at the 31 October 2023 Ordinary Council Meeting.
- Council determine that a temporary modal filter at 142 Central Avenue be considered as part of the Redcliffe Area local traffic study.

Motion 2

Motion 2 reads as follows:

"That prior to the installation of the permanent traffic calming on Stanton, the City convene a community consultation meeting for the purpose of identifying

and addressing local Redcliffe resident, school & general community issues and concerns, particularly:

- a) the need to identify safety treatments for school drop off and pick ups and permanent safe pedestrian road crossings.
- b) the need to deter (non-local & rat run) traffic Airport in & out bound from using Epsom Avenue, Durban Street & Hardey Road
- c) the need to stop through (non-local & rat run) traffic problems on Stanton Road, DA6 (particularly Boulder & Bulong) and the West Redcliffe Block*(particularly Morrison, Lyall, Moreing & Victoria)* the West Redcliffe Block being the area bound by Stanton, Tonkin, Great Eastern and Epsom.
- d) the need to temporarily close Bulong at Boorn until an application for multi-storey development approval is progressed on Bulong."

The 28 February 2023 Ordinary Council Meeting resolutions pertaining to Stanton Road traffic were as a response to significant complaints from the community regarding traffic volumes and safety on the road.

Following investigations into low-cost traffic calming options, the City engaged with the community on the proposed Stanton Road/ Second Street Low Cost Urban Road Safety (LCURS) works. Engagement methods included:

- Direct letter drops – 138 delivered
- Belmont Connect – 585 page views, 254 visitors
- Website news item – 126 page views, 90 visitors
- Belmont Bulletin - distributed to 21,500 households in the City of Belmont

In relation to Part a) of Motion 2 where electors have determined the need to identify safety treatments for school drop off and pick ups and permanent safe pedestrian road crossings, the City engaged directly with St Maria Goretti School who are supportive of the City's LCURS project. The school has already modified their on-site car parking and introduced a circulating flow regime with one way, left turn access from Morrison St and left turn exit onto Stanton Rd. This system is working well. Further to this, the Principal of St Maria Goretti School is also considering an application to the Department of Transport for a signalised pedestrian crossing on Stanton Road.

The City has also engaged Redcliffe Primary School in relation to a Kiss-and-Ride drop off proposal.

It is considered that Part a) of the electors' decision on Motion 2 has been addressed and no further action is required.

Parts b), c), and d) of Motion 2 relate to the traffic movement and access network for the area.

The City has already engaged a specialist traffic engineering consultant and commenced the traffic modelling for the Redcliffe Area local traffic study. City officers are currently preparing the Stakeholder Engagement Plan for this study. Community engagement for the study will include initial consultation to identify any other traffic concerns in the area, followed by opportunity to comment on the findings of the report upon completion. The community concerns identified in items b), c) and d) of this motion will be addressed in the community consultation for the modelling study.

The indicative timings for the Redcliffe Area local traffic study are as follows:

1. Base Model preparation April – June 2024
2. Option Scenario testing July – September 2024
3. Final Report October 2024

It is intended that community engagement for the Redcliffe Area local traffic study will be conducted in parallel with the Stanton Road/Second Street LCURS works, which are scheduled to commence in mid-July following the completion of Western Power’s lighting upgrade works. It is anticipated the works will be completed by the end of August 2024. Following this, the City will undertake further traffic counts in the Redcliffe area to inform the traffic model.

It is recommended that Council affirm that community engagement in relation to Parts b), c), and d) of Motion 2 be conducted to inform the Redcliffe local area traffic study.

Motion 3

Motion 3 reads as follows:

“That prior to the installation of the permanent traffic calming on Stanton, the City engages an independent traffic engineering consultant firm to provide traffic management calming options and recommendations that address the issues and concerns raised, that a supplementary community meeting be convened for presentation of the recommendations and public comment on the recommendations.”

As noted earlier in this report, the City has already appointed an independent traffic engineering consultant to undertake the Redcliffe Area local traffic study, and City officers are currently preparing the Stakeholder Engagement Plan associated with the study.

It is recommended that Council confirm that the City has already engaged an independent specialist traffic engineering consultant to undertake modelling of the Redcliffe Area local road network.

Motion 4

Motion 4 reads as follows:

“That Council instruct the City to create a formal traffic management policy that for governance and transparency is publicly available on the City’s website, that the policy reflects the current 2020 Aust Roads City of Stirling guideline version of the warrant system point scoring that establishes an orderly method to assess priority and need for traffic calming.”

The City’s approach to traffic management is to adopt strategic transportation planning using traffic modelling as a primary planning method, and use of the City’s warrant system as a local traffic management support tool. In addition, the City will develop a Road Safety Management Plan adopting the template provided by Main Roads WA. These are identified as key actions under the proposed Corporate Business Plan 2024 - 2028.

There are numerous benefits of adopting a strategic transportation planning approach:

- Ability to model broader areas of the transportation network
- Ability to look ahead, identify trends and plan to meet future demands
- Ability to model various traffic management scenarios and their impact on the broader network
- Informs and enhances stakeholder and community engagement
- Informs planning for potential developer contributions towards infrastructure upgrades
- Supports external grant funding applications
- Informs the Long-Term Financial Plan for future projects

The Local Area Traffic Management Warrant System (LATM-WS) is not a strategic planning tool. It is a tool that is used in response to traffic issues that have already been identified. The LATM-WS has a limited focus and does not consider wider area influences – this is acknowledged in the Austroads Guide to Traffic Management Part 8, Local Street Management, *‘LATM can be seen as a tool of traffic calming at the local level’*. It also does not consider the wider area consequences of implementing local traffic calming measures.

It is recognised that road networks are unique in different localities, and it is difficult to develop a uniform appraisal system that would apply to all areas. It may not therefore be appropriate to apply a warrant system adopted in another local government area. This is acknowledged in the Austroads Guide which states that *'there is no best practice or standard for warrants or setting priorities for LATM'*.

The Austroads Guide also provides advice that:

'...warrants for LATM can never be treated as absolute, because judgement about what are desirable and deficient levels of operation of local streets, places and land systems are unavoidably subjective... as wider traffic engineering experience has taught, the use of warrants and other level of service criteria as the sole basis for deciding or not can lead to misunderstandings and criticism in the community'.

The use of the LATM-WS is therefore only recommended to deal with discrete, local problem areas and as an operational tool to support traffic engineering professionals.

There are only three metropolitan WA local governments that have a policy specifying the details of their LATM-WS. It is noted that these policies do not have a consistent approach to the application of the warrant system. They also have specific restrictions on the use of their warrant systems. For example, the City of Fremantle's policy 'Traffic calming priority' limits the use of their warrant system to road lengths less than 500m - this would rule out the use of this warrant system for most of the local roads in Redcliffe.

The wide variance of approach adopted by Perth metropolitan councils to traffic management is reflective of the differing dynamics and circumstances existing across the Perth area. This emphasises that expert traffic engineering discretion in determining suitable traffic management treatments is the appropriate approach towards balanced outcomes.

It is recommended that Council affirms that the City's approach to traffic management is to adopt strategic transportation planning using traffic modelling as a primary planning method, and use of the City's warrant system as a local traffic management support tool.

Financial implications

There are no financial implications evident at this time.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Members of the Public (Non-Elector)

Ms L Hollands

1 Welcome

6.30pm The Presiding Member welcomed all those in attendance and declared the meeting open.

The Presiding Member read aloud the Acknowledgement of Country.

Acknowledgement of Country

Before I begin, I would like to acknowledge the Whadjuk Noongar people as the Traditional Owners of this land and pay my respects to Elders past, present and emerging.

I further acknowledge their cultural heritage, beliefs, connection and relationship with this land which continues today.

In accordance with Section 17.2 of the City of Belmont *Standing Orders Local Law 2017*, the Presiding Member informed the meeting, that should any person in attendance wish to participate in the discussions, who is not an elector or a ratepayer, an elector can move a motion in order for this to occur.

No one indicated that they would like the opportunity to participate in the discussion.

2 Purpose of Meeting

2.1 Request for a Special Meeting of Electors - Stanton Road

This Special Electors' Meeting has been called in accordance with Section 5.28 of the *Local Government Act 1995 (WA)* and the matters to be discussed are as follows:

"The City has decided to go into the Stanton roadworks with no traffic modelling, no temporary trial, inadequate community consultation and without Council approval for permanent roadworks. That the City consider an alternative solution, convene a public meeting and create a traffic calming policy. At a Community Meeting held Sunday 10th December 2023, the following 4 motions received overwhelming support for a Special Electors Meeting."

3 Motions

3.1 Motion 1

Officer Recommendation

Mr J Harris moved, Ms N Celenza seconded

That the City pause the implementation of permanent traffic calming on Stanton and replace it with a temporary modal filter (e.g. in the form of inexpensive water filled bollards) on Central – at 142 Central, adjacent to the border of Airport land to temporarily restrict airport outbound traffic on Dunreath drive for a 12-month period.

Carried 41 votes to 0

3.2 Motion 2

Officer Recommendation

Mr B O'Hara moved, Mr M Cardozo seconded

That prior to the installation of the permanent traffic calming on Stanton, the City convene a community consultation meeting for the purpose of identifying and addressing local Redcliffe resident, school & general community issues and concerns, particularly:

- a) the need to identify safety treatments for school drop off and pick ups and permanent safe pedestrian road crossings.
- b) the need to deter (non-local & rat run) traffic Airport in & out bound from using Epsom Avenue, Durban Street & Hardey Road
- c) the need to stop through (non-local & rat run) traffic problems on Stanton Road, DA6 (particularly Boulder & Bulong) and the West Redcliffe Block*(particularly Morrison, Lyall, Moreing & Victoria)* the West Redcliffe Block being the area bound by Stanton, Tonkin, Great Eastern and Epsom.
- d) the need to temporarily close Bulong at Boorn until an application for multi-storey development approval is progressed on Bulong.

Carried 41 votes to 0

3.3 Motion 3

Officer Recommendation

Ms B Scharfenstein moved, Mr R Padua seconded

That prior to the installation of the permanent traffic calming on Stanton, the City engages an independent traffic engineering consultant firm to provide traffic management calming options and recommendations that address the issues and concerns raised, that a supplementary community meeting be convened for presentation of the recommendations and public comment on the recommendations.

Carried 42 votes to 0

7.15pm The Compliance Administrator departed the meeting and did not return.

3.4 Motion 4

Officer Recommendation

Mr B O'Hara moved, Mr J Harris seconded

That Council instruct the City to create a formal traffic management policy that for governance and transparency is publicly available on the city's website, that the policy reflects the current 2020 Aust Roads City of Stirling guideline version of the warrant system point scoring that establishes an orderly method to assess priority and need for traffic calming.

Carried 41 votes to 0

4 Closure

There being no further business, the Presiding Member thanked everyone for their attendance and closed the meeting at 7.49pm.

12.4 Accounts for Payment April 2024

Voting Requirement	:	Simple Majority
Subject Index	:	54/007-Creditors-Payment Authorisations
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	N/A
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To present to Council the list of expenditure paid for the period 01 April 2024 to 30 April 2024 under delegated authority.

Summary and key issues

A list of payments is presented to the Council each month for confirmation and endorsement in accordance with the *Local Government (Financial Management) Regulations 1996 (WA)*.

Officer Recommendation

That the Authorised Payment Listing for April 2024 as provided under Attachment 12.4.1 be received.

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2020–2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.2 Manage the City's assets and financial resources in a responsible manner and provide the best possible services for the community.

Strategy: 5.6 Deliver effective, fair and transparent leadership and decision-making, reflective of community needs and aspirations.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996 (WA)* states:

“If the local government has delegated to the CEO the exercise of its power to make payments from the municipal fund or the trust fund, a list of accounts paid by the CEO is to be prepared each month showing for each account paid since the last such list was prepared:

- (a) the payee's name;
- (b) the amount of the payment;
- (c) the date of the payment; and
- (d) sufficient information to identify the transaction.”

(3) A list prepared under sub regulation (1) is to be presented to Council at the next ordinary meeting of Council after the list is prepared; and recorded in the minutes of that meeting.

Regulation 13A of the *Local Government (Financial Management) Regulations 1996 (WA)* effective from 1 September 2023 states:

- (1) If a local government has authorised an employee to use a credit, debit or other purchasing card, a list of payments made using the card must be prepared each month showing the following for each payment made since the last such list was prepared —
 - (a) the payee’s name;
 - (b) the amount of the payment;
 - (c) the date of the payment;
 - (d) sufficient information to identify the payment.
- (2) A list prepared under subregulation (1) must be —
 - (a) presented to the council at the next ordinary meeting of the council after the list is prepared; and
 - (b) recorded in the minutes of that meeting.

Background

Council has delegated to the Chief Executive Officer under Delegation 1.1.18 to make payment from the Municipal and Trust Fund account. In accordance with Regulation 13(1) of the *Local Government (Financial Management) Regulations 1996 (WA)*, where this power has been delegated, a list of payments each month is to be compiled and presented to Council.

Report

The following summary of payments are recommended for confirmation and endorsement.

Payment type	Payment reference	\$
Municipal Fund Cheques	NIL	0
Municipal Fund EFTs	EF089647-EF090097	6,068,288.85
Municipal Fund Payroll	April 2024	2,019,671.99
Trust Fund EFT	EF089697-EF089861	39,918.70

Total Payments for April 2024		8,127,879.54
--------------------------------------	--	---------------------

A copy of the Authorised Payment Listing is included as Attachment 12.4.1.

Financial implications

All expenditure included in the Authorised Payment Listing is in accordance with Council's Annual budget.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

Responsible Division	:	Corporate and Governance

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To provide Council with relevant monthly financial information for the 2023-24 financial year.

Summary and key issues

The following report includes a concise list of material variances for the month ending 30 April 2024.

This report also contains proposed budget amendments relating to the refurbishment of the Faulkner Park Retirement Village Clubhouse, the NatureLink Program and the replacement of streetlighting at Gabriel Gardens independent living units.

Officer Recommendation

That Council:

1. Receives the Monthly Financial Reports as at 30 April 2024 as included in Attachment 12.5.1.
2. Adopts the following amendment to the 2023-24 budget relating to the refurbishment of the Faulkner Park Retirement Village Clubhouse:

Account	Account Desc.	Current Budget	Proposed Budget	Movement
BB2410-30-1279	Faulkner Park Retirement Village - Refurbishment	180,000	251,984	71,984
BB2410-00-6831	Faulkner Park Retirement Village Refurbishment Reserve	(180,000)	(251,984)	(71,984)
TOTAL				0

3. Adopts the following amendment to the 2023-24 budget relating to the NatureLink Program:

Account	Account Desc.	Current Budget	Proposed Budget	Movement
996002-00-1271	Environmental Services	60,000	310,000	250,000
996002-00-4059	Environmental Services - Contributions	0	(250,000)	(250,000)
TOTAL				0

4. Adopts the following amendment to the 2023-24 budget relating to the Security and Street lights at Gabriel Gardens independent living units:

Account	Account Desc.	Current Budget	Proposed Budget	Movement
BB2510-30-1279	Gabriel Gardens Streetlighting	0	50,000	50,000
BB2510-00-6822	Aged Persons Housing Reserve	0	(50,000)	(50,000)
TOTAL				0
An absolute majority of Council is required				

Location

Not applicable.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2020–2040 Strategic Community Plan:

Goal 5: Responsible Belmont

Strategy: 5.2 Manage the City's assets and financial resources in a responsible manner and provide the best possible services for the community.

Policy implications

There are no policy implications associated with this report.

Statutory environment

Section 6.4 of the *Local Government Act 1995 (WA)* in conjunction with *Regulations 34 (1) of the Local Government (Financial Management) Regulations 1996 (WA)* requires monthly financial reports to be presented to Council.

Regulation 34(1) requires a monthly Statement of Financial Activity reporting on revenue and expenditure.

Regulation 34(5) determines the mechanism required to ascertain the definition of material variances which are required to be reported to Council as a part of the monthly report.

Background

Local Government (Financial Management) Regulations 1996 (WA) prescribe that a Local Government is to prepare each month a Statement of Financial Activity.

Regulation 34(2) requires the Statement of Financial Activity to be accompanied by documents containing:

1. Explanation for each material variance identified between year to date budgets and actuals
2. Any other supporting information considered relevant by the Local Government.

Local Government (Financial Management) Regulations 1996 (WA) - Regulation 34 (5) states "Each financial year, a Local Government is to adopt a percentage or value, calculated in accordance with the Australian Accounting Standards, to be used in statements of financial activity for reporting material variances."

This regulation requires Council to annually set a materiality threshold for the purpose of disclosing budget variances within monthly financial reporting.

The materiality threshold has been set by Council at \$100,000 for the 2023-24 financial year.

Report

At the June 2023 Ordinary Council Meeting, Council adopted the materiality threshold for the 2023-24 financial year as \$100,000. The below table provides a summary of significant variances based on this materiality threshold. The detailed financial activity report is included at Attachment 12.5.1.

Report Section	Budget YTD	Actual YTD	Report Comments
Operating Activities			
Revenue from operating activities			
Fees and charges			
City Facilities & Property	891,005	1,017,739	Increase in rent for residential tenancies and an increase in use of some community centres.
Economic & Community Development	276,667	391,662	Higher than anticipated income from sale of units at Faulkner Park Retirement Village.
Other revenue			
Governance, Strategy & Risk	338,554	147,398	Insurance reimbursement relating to the Belmont Hub fire received in May.
Expenditure from operating activities			
Employee costs			
Governance, Strategy & Risk	(1,885,804)	(1,589,509)	Salaries are below budget due to vacancies which are currently being recruited by the City.
Parks, Leisure & Environment	(3,033,658)	(2,822,241)	
City Projects	(359,178)	(502,438)	Overspend due to portion of project manager costs to be capitalised at year end.
Materials and contracts			
Governance, Strategy & Risk	(704,912)	(361,615)	Consulting and legal fees budgeted but not utilised to date.
Information Technology	(2,008,165)	(2,181,264)	Cyber Security projects completed and invoiced earlier than expected.
Public Relations & Stakeholder Engagement	(840,700)	(623,225)	Underspend and cost savings linked to project reprioritisation
Works	(6,937,358)	(6,815,754)	Maintenance programs on track.
Design, Assets & Development	(422,354)	(309,210)	Contract recently awarded for traffic modelling project, claims to be received in coming months.

Report Section	Budget YTD	Actual YTD	Report Comments
City Facilities & Property	(2,551,984)	(2,168,446)	Delays in contractor invoicing along with an increase in expected income from tenancy outgoings.
Planning Services	(312,881)	(155,223)	Aspects of some projects have been managed in house, and some consultant's costs have not yet been incurred.
Safer Communities	(2,168,480)	(1,963,384)	Variance due to Community Watch invoice not yet received and ranger vehicles on backorder.
Economic & Community Development	(1,737,932)	(1,601,221)	Underspend due to the revised scope of various initiatives within the department.
Library, Culture & Place	(2,264,091)	(1,825,102)	Underspend due to delay in completion of the 125th Anniversary Celebrations and Wright St Art project.

Report Section	Budget YTD	Actual YTD	Report Comments
Utility charges			
City Facilities & Property	(755,959)	(625,731)	April electricity invoice not yet received.
Depreciation	(10,713,013)	(10,343,911)	Reduced depreciation in line with reduced capital spend.
Insurance Expenses			
Governance, Strategy & Risk	(268,571)	(119,381)	The actual insurance premium is lower than estimated amount.
Other expenditure			
Economic & Community Development	(623,062)	(747,237)	Higher than anticipated expenses due to sale of units at Faulkner Park Retirement Village.
Non-cash amounts excluded from operating activities	10,690,339	8,087,088	Reduced depreciation in line with reduced capital spend.
Investing Activities			
Inflows from investing activities			
Non-operating grants, subsidies and contributions			
Works	1,743,091	1,253,542	Roads to Recovery grant yet to be received.
Proceeds from disposal of assets			
Design, Assets & Development	259,535	154,385	Fleet to be sold at auction when new orders are delivered.
Outflows from investing activities			
Payments for property, plant and equipment			
Information Technology	(482,199)	(590,384)	Firewall renewal project classified as capital rather than operating as budgeted.
Works	(292,635)	(155,581)	Delays in receiving plant and equipment to conclude scheduled work.
City Facilities & Property	(1,362,087)	(922,808)	Delays in receiving plant and equipment to conclude scheduled work.
Safer Communities	(231,743)	(62,591)	Underspend in CCTV projects due to hardware supply delays.

Report Section	Budget YTD	Actual YTD	Report Comments
Payments for construction of infrastructure			
Works	(4,318,213)	(4,003,848)	Variances in construction projects including Fisher Street and Parkview Pde - Morrison St.
City Projects	(898,864)	(580,861)	Variance as a result of Esplanade Foreshore Stabilisation project commencement being revised to September 24.
Parks, Leisure & Environment	(3,975,952)	(2,292,073)	Expenditure reflects delays within supply chain however works program indicates completion within this budget cycle.

Budget Amendments

Faulkner Park Retirement Village Clubhouse

The City recently carried out a refurbishment of the 'Clubhouse' at the Faulkner Park Retirement Village, a portion of the original scope was for the provision of furniture. On advice received from Southern Cross Care, facility managers for the Village, this portion was removed from the original scope of works, as the Village Committee wished to be involved in the selection of furniture that is appropriate for the residents. The furniture that has been selected by the committee is specifically designed to meet the needs of residents and a quote has been received for the provision of this furniture.

The Faulkner Park Retirement Village Refurbishment Reserve has been established to provide for the future major maintenance and refurbishment requirements at the Faulkner Park Retirement Village, and it is therefore appropriate to utilise these funds for the purchase of the furniture. In order to obtain the furniture, a budget amendment is proposed now rather than to wait for the adoption of the 2024-25 Annual Budget.

Following these amendments, the Faulkner Park Retirement Village Refurbishment Reserve will have an estimated closing balance of \$427,849 for the 2023-24 year.

NatureLink Program

As part of both the Urban Forest and Streetscape Enhancement Strategies, the City has developed a program aligned with both to activate a nature corridor to encourage native fauna back within the City's boundaries.

The City have received funding approval from Water Corporation to the value of \$25,000 to commence this program with works to commence May 2024 and look at incentives to help improve our ecological linkages across Belmont through planting and community education. In order to commence, a budget amendment is proposed now rather than to wait for the adoption of the 2024-25 Annual Budget.

Gabriel Gardens Independent Living Units

Southern Cross Care have reported that several of the Security and Street lights at Gabriel Gardens independent living units are unserviceable. On investigation they have discovered that the cabling to these lights has failed, to reinstate the existing would necessitate a full rewire which is not a viable option, due to the condition of the poles and light fittings. It is now intended to replace the lights and poles with new LED Solar lights, the addition of the Solar lights will mean that there will be no future electrical consumption costs associated with the lighting, providing a saving moving forward.

The Aged Persons Housing Reserve was established to provide funds for future capital expenditure at the four Independent Living Unit villages, it is therefore appropriate to utilise these funds for the supply and installation of the lights. To carry out the works a budget amendment is proposed now rather than to wait for the adoption of the 2024-25 Annual Budget as this is a safety issue for the residents at Gabriel Gardens.

Following these amendments, the Aged Persons Housing Reserve will have an estimated closing balance of \$553,735 for the 2023-24 year.

Financial implications

The presentation of these reports to Council ensures compliance with the *Local Government Act 1995 (WA)* and associated Regulations, and also ensures that Council is regularly informed as to the status of its financial position.

Environmental implications

There are no environmental implications associated with this report.

Social implications

There are no social implications associated with this report.

**NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 APRIL 2024**

1 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PREPARATION

This prescribed financial report has been prepared in accordance with the *Local Government Act 1995* and accompanying regulations.

Local Government Act 1995 requirements

Section 6.4(2) of the *Local Government Act 1995* read with the *Local Government (Financial Management) Regulations 1996*, prescribe that the financial report be prepared in accordance with the *Local Government Act 1995* and, to the extent that they are not inconsistent with the Act, the Australian Accounting Standards. The Australian Accounting Standards (as they apply to local governments and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board were applied where no inconsistencies exist.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost, and is considered a zero cost concessionary lease. All right-of-use assets under zero cost concessionary leases are measured at zero cost rather than at fair value, except for vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from AASB 16 which would have required the City to measure any vested improvements at zero cost.

Local Government (Financial Management) Regulations 1996, regulation 34 prescribes contents of the financial report. Supporting information does not form part of the financial report.

Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the financial report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

THE LOCAL GOVERNMENT REPORTING ENTITY

All funds through which the City controls resources to carry on its functions have been included in the financial statements forming part of this financial report.

All monies held in the Trust Fund are excluded from the financial statements.

Judgements and estimates

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The balances, transactions and disclosures impacted by accounting estimates are as follows:

- estimated fair value of certain financial assets
- impairment of financial assets
- estimation of fair values of land and buildings, infrastructure and investment property
- estimation uncertainties made in relation to lease accounting
- estimated useful life of intangible assets

SIGNIFICANT ACCOUNTING POLICES

Significant accounting policies utilised in the preparation of these statements are as described within the 2023-24 Annual Budget. Please refer to the adopted budget document for details of these policies.

PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 30 April 2024

CITY OF BELMONT
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 APRIL 2024

2 STATEMENT OF FINANCIAL ACTIVITY INFORMATION

	Amended Budget Opening	Last Year Closing	Year to Date
(a) Net current assets used in the Statement of Financial Activity	30 June 2023	30 June 2023	30 April 2024
Current assets	\$	\$	\$
Cash and cash equivalents	11,451,932	12,671,468	8,705,286
Trade and other receivables	1,717,407	24,316,211	24,925,644
Other financial assets	39,012,440	33,253,360	48,118,043
Inventories	177,335	246,770	276,803
Other assets	336,836	2,533,328	3,479,581
	<u>52,695,950</u>	<u>73,021,137</u>	<u>85,505,357</u>
Less: current liabilities			
Trade and other payables	(5,539,964)	(5,743,434)	(2,233,096)
Other liabilities	(969,598)	(1,400,503)	(1,376,599)
Lease liabilities	(58,056)	(118,561)	(118,561)
Borrowings	(641,884)	(618,110)	0
Employee related provisions	(4,542,090)	(4,428,402)	(4,187,220)
Other provisions	(102,912)	0	0
	<u>(11,854,504)</u>	<u>(12,309,010)</u>	<u>(7,915,476)</u>
Net current assets	40,841,446	60,712,127	77,589,881
Less: Total adjustments to net current assets			
Closing funding surplus / (deficit)	2(c) (40,341,446)	(48,759,480)	(48,282,159)
	500,000	11,952,647	29,307,722

(b) Non-cash amounts excluded from operating activities

The following non-cash revenue and expenditure has been excluded from operating activities within the Statement of Financial Activity in accordance with *Financial Management Regulation 32*.

	Amended Budget	YTD Budget (a)	YTD Actual (b)
Non-cash amounts excluded from operating activities	\$	\$	\$
Adjustments to operating activities			
Less: Profit on asset disposals	(76,289)	(50,859)	(27,368)
Add: Loss on asset disposals	0	0	14,026
Add: Depreciation	12,855,614	10,713,014	10,343,911
Movement in non-current employee provisions	64,822	0	0
- Pensioner deferred rates	0	0	(28,105)
- Employee provisions	0	0	650,414
Total non-cash amounts excluded from operating activities	12,844,147	10,662,155	10,952,878

(c) Current assets and liabilities excluded from budgeted deficiency

The following current assets and liabilities have been excluded from the net current assets used in the Statement of Financial Activity in accordance with *Financial Management Regulation 32* to agree to the surplus/(deficit) after imposition of general rates.

	Amended Budget Opening	Last Year Closing	Year to Date
(a) Current assets and liabilities excluded from budgeted deficiency	30 June 2023	30 June 2023	30 April 2024
	\$	\$	\$
Adjustments to net current assets			
Less: Reserve accounts	(44,568,885)	(61,681,383)	(60,636,791)
Add: Financial assets at amortised cost	0	31,022,402	31,022,402
- EMRC receivable	0	(20,927,619)	(20,927,619)
Add: Current liabilities not expected to be cleared at the end of the year:			
- Current portion of borrowings	641,884	618,110	0
- Current portion of lease liabilities	58,056	118,561	118,561
- Current portion of employee benefit provisions held in reserve	3,527,499	2,090,449	2,141,288
Total adjustments to net current assets	2(a) (40,341,446)	(48,759,480)	(48,282,159)

CURRENT AND NON-CURRENT CLASSIFICATION

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. Unless otherwise stated assets or liabilities are classified as current if expected to be settled within the next 12 months, being the City's operational cycle.

Attachment 12.5.1 Monthly Financial Report - April

CITY OF BELMONT
NOTES TO THE STATEMENT OF FINANCIAL ACTIVITY
FOR THE PERIOD ENDED 30 APRIL 2024

3 EXPLANATION OF MATERIAL VARIANCES

The material variance thresholds are adopted annually by Council as an indicator of whether the actual expenditure or revenue varies from the year to date actual materially.
 The material variance adopted by Council for the 2023-24 year is \$100,000.

Description	Var. \$	Var. %	
	\$	%	
Revenue from operating activities			
Fees and charges	467,395	4.89%	p
City Facilities & Property - Increase in rent for residential tenancies and increase in use of some community centres - \$126,734		Timing	
Economic & Community Development - Higher than expected revenue from sale of Faulkner Park - \$114,995		Timing	
Interest revenue	(171,367)	(3.16%)	q
Finance - Timing variance associated with investment maturities		Timing	
Other revenue	(116,750)	(12.27%)	q
Governance, Strategy & Risk - Insurance reimbursement relating to the Belmont Hub fire not yet received - (\$191,156)		Timing	
Expenditure from operating activities			
Employee costs	702,112	3.17%	p
Salaries are below budget due to vacancies currently being recruited by the City		Permanent	
Materials and contracts	2,074,366	7.80%	p
Governance, Strategy & Risk - Consulting and legal fees budgeted but not utilised - \$343,297		Timing	
Information Technology - Cyber security projects completed and invoiced ahead of expectation - (\$173,099)		Timing	
Public Relations & Stakeholder Engagement - Underspend and cost savings related to project reprioritisation - \$217,475		Timing	
Design, Assets & Development - Contract recently awarded for Traffic Modelling Project, claims to be received in coming months - \$113,144		Timing	
Works - Maintenance programs and expenditure on track - \$121,605		Timing	
City Facilities & Property - Delays in contractor invoicing along with an increase in expected income from tenancy outgoings - \$383,537		Timing	
Planning Services - Aspects of some projects have been managed in house and consultant costs have not yet been incurred - \$157,658		Timing	
Safer Communities - Variance due to BCW invoice not yet received, ranger vehicle expenses not yet incurred as vehicles are still on back order and agency staff costs higher than budgeted in line with employee costs underspend - \$205,097		Timing	
Economic & Community Development - Underspend in various initiatives due to staff vacancies, resulting in some program / contracting delays and reduced scope of some programs - \$136,711		Timing	
Library, Culture & Place - Underspend due to delay in completion of the 125th Anniversary Celebrations and Wright St Art project - \$438,989		Timing	
Utility charges	296,300	19.94%	p
Various Utility Charges below budget due to amounts below material variance threshold		Timing	
Depreciation	369,103	3.45%	p
Accrual entry for January to April yet to be reversed		Timing	
Insurance	142,744	16.69%	p
Governance, Strategy & Risk - The actual insurance premium is lower than estimated amount		Timing	
Non-cash amounts excluded from operating activities	290,723	2.73%	p
Reduced depreciation in line with reduced capital spend.		Timing	
Proceeds from capital grants, subsidies and contributions	(500,756)	(20.57%)	q
Works - Roads to Recovery grant yet to be received - (\$489,549)		Timing	
Outflows from investing activities			
Payments for property, plant and equipment	734,497	24.33%	p
Information Technology - Firewall renewal project overspend due to new hardware asset to be capitalised at the end of project, instead of operating as budgeted - (\$108,185)		Timing	
City Facilities & Property - Delays in receiving plant and equipment to conclude scheduled work - \$439,279		Timing	
Safer Communities - Underspend in CCTV projects due to hardware supply delays - \$169,152		Timing	
Works - Delays in receiving plant & equipment to conclude scheduled work - \$137,054		Timing	
Payments for construction of infrastructure	2,171,672	24.28%	p
Works - Construction projects are on schedule - timing variances to include Fisher Street and Parkview Pde - Morrison St - \$314,365		Timing	
City Projects - Variance as a result of Esplanade Foreshore Stabilisation project commencement date being revised to September 24 - Parks, Leisure & Environment - Expenditure reflects delays within supply chain however works program indicates completion within this budget cycle - \$1,683,879		Timing	
Surplus or deficit after imposition of general rates	6,264,842	27.19%	p
Due to variances described above

SIGNIFICANT ACCOUNTING POLICIES

Each class of fixed assets within either plant and equipment or infrastructure, is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Assets for which the fair value as at the date of acquisition is under \$5,000 are not recognised as an asset in accordance with *Financial Management Regulation 17A (5)*. These assets are expensed immediately.

Where multiple individual low value assets are purchased together as part of a larger asset or collectively forming a larger asset exceeding the threshold, the individual assets are recognised as one asset and capitalised.

Initial recognition and measurement for assets held at cost

Plant and equipment including furniture and equipment is recognised at cost on acquisition in accordance with *Financial Management Regulation 17A*. Where acquired at no cost the asset is initially recognise at fair value. Assets held at cost are depreciated and assessed for impairment annually.

Initial recognition and measurement between mandatory revaluation dates for assets held at fair value

In relation to this initial measurement, cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at zero cost or otherwise significantly less than fair value, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the City includes the cost of all materials used in construction, direct labour on the project and an appropriate proportion of variable and fixed overheads.

13 Reports by the Chief Executive Officer

13.1 Request for leave of absence

13.2 Notice of motion

13.2.1 Notice of Motion (Mayor Rossi) - Urban Forest at Home Plan

Voting Requirement	:	Simple Majority
Subject Index	:	32/024
Location/Property Index	:	N/A
Application Index	:	N/A
Disclosure of any Interest	:	Nil
Previous Items	:	N/A
Applicant	:	N/A
Owner	:	N/A
Responsible Division	:	Infrastructure Services

Council role

Executive The substantial direction setting and oversight role of the Council e.g. adopting plans and reports, accepting tenders, directing operations, setting and amending budgets.

Purpose of report

To consider the Notice of Motion received from Mayor Rossi relating to the Urban Forest Strategy.

Summary and key issues

A request has been received from Mayor Rossi for Council to consider including a program within the Urban Forest Strategy which aims to incentivise residents to plant trees within their private properties.

Councillor Motion

That Council ask the Chief Executive Officer to develop the City of Belmont's own Urban Forest at Home plan, with a clear objective of expanding our tree canopy and mitigating urban heat islands on private properties over the span of five years.

Reasons

With the Urban Forest Strategy currently under review and a draft set to be presented to Council in June, I believe it's crucial to highlight one particular area that requires strengthening, as a result of the State Government refusing to protect trees on private properties. Therefore, it's imperative for the Council to step in and offer trees and shrubs for private properties, filling this gap in support.

Officer recommendation

That Council instruct the Chief Executive Officer to include in the Urban Forest Strategy 2024-34 (currently under review), as part of community engagement, a program to incentivise residents to plant trees within their private properties to help the City expand our tree canopy and mitigate urban heat islands over the life of the Strategy.

Location

The City of Belmont.

Consultation

There has been no specific consultation undertaken in respect to this matter.

Strategic Community Plan implications

In accordance with the 2020–2040 Strategic Community Plan:

Goal 3: Natural Belmont

Strategy: 3.1 Protect and enhance our natural environment.

Strategy: 3.4 Provide green spaces for recreation, relaxation and enjoyment.

Policy implications

There are no policy implications associated with this report.

Statutory environment

There are no specific statutory requirements in respect to this matter.

Background

A Notice of Motion received from Mayor Rossi reads as follows:

“That Council ask the CEO to develop the City of Belmont’s own Urban Forest at Home plan, with a clear objective of expanding our tree canopy and mitigating urban heat islands on private properties over the span of five years.

Reasons

With the Urban Forest Strategy currently under review and a draft set to be presented to Council in June, I believe it's crucial to highlight one particular area that requires strengthening, as a result of the State Government refusing to protect trees on private properties. Therefore, it's imperative for the Council to step in and offer trees and shrubs for private properties, filling this gap in support.”

Report

The current 'Trees for Residents' program offers one tree per property per annum. The City has recently commenced the Verge Garden Program. As part of the program, residents can apply for a free Verge Garden Makeover Starter Kit which includes 20 advanced WA native plants, mulch, soil conditioner and a Verge Garden Makeover Guide.

As part of the revised Urban Forest Strategy 2024-34, the City will propose to increase the trees available to residents under the 'Trees for Residents' program from the current one tree per property up to a maximum of five trees per property over the lifetime of the Strategy. In addition, plant packs will be available to order under the program so residents can order trees and/or plants. This will continue to run in parallel with the Verge Garden Program.

By incentivising residents to plant more trees on their private property the City will be taking positive action to offset the effects of Urban Heat Islands (UHI) and positively support the City’s goal to increase tree canopy coverage.

Financial implications

The cost of the additional trees and plant packs is estimated at \$95.70 per property, per annum. Based on the average number of 180 properties that have participated in the program between 2021 and 2024, the total annual cost to Council is estimated at \$17,226 plus GST.

Environmental implications

This plan will support the City's goal to increase canopy coverage and offset the effects of Urban Heat Islands.

Social implications

This plan will enhance the existing Verge Garden Program and 'Trees for Residence' programs that give residents an opportunity to support the City's environmental programs and instil a sense of pride in their community.
